Eleven Doctors, eleven months, eleven stories: a year-long celebration of Doctor Who! The most exciting names in children's fiction each create their own unique adventure about the time-travelling Time Lord. Thousands of years ago, Time Lords built a Prison for the Kin. They made it utterly impregnable and unreachable. As long as Time Lords existed, the Kin would be trapped forever and the universe would be safe. They had planned for everything . . . everything, that is, other than the Time War and the fall of Gallifrey. Now the Kin are free again and there's only one Time Lord left in the universe who can stop them! Author Neil Gaiman puts his own unique spin on the Doctor's amazing adventures through time and space in the eleventh and final story in the bestselling 50th anniversary series! stories, and cartoons satirizing the Doctor Who television program "Here on Saturn, it literally rains diamonds." For over fifteen years the crew of Kollo-Zarnista Mining Facility 27 has been extracting diamonds from deep within the atmosphere of Saturn, diamonds that help to fund the ever-expanding Human Empire. But when a mining operation goes wrong, a rescue mission must be launched to save a worker lost overboard, a worker who claims that he has seen something amongst the swirling clouds. Something that can't possibly exist. When the Doctor and Bill arrive, they immediately find themselves caught between hostile miners, suspicious security guards and corrupt company officials as they face accusations of sabotage and diamond theft. And below them, in the crushing atmosphere of the gas giant, something is starting to rise. An original novel featuring the Twelfth Doctor and Bill as played by Peter Capaldi and Pearl Mackie. Rediscover the lost Doctor Who adventure by Douglas Adams.

Intergalactic war? That 's just not cricket ... or is it? The Doctor promised Romana the end of the universe, so she 's less than impressed when what she gets is a cricket match. But then the award ceremony is interrupted by eleven figures in white uniforms and peaked skull helmets, wielding bat-shaped weapons that fire lethal bolts of light into the screaming crowd. The Krikkitmen are back. Millions of years ago, the people of Krikkit learned they were not alone in the universe, and promptly launched a xenophobic crusade to wipe out all other life-forms. After a long and bloody conflict, the Time Lords imprisoned Krikkit within an envelope of Slow Time, a prison that could only be opened with the Wicket Gate key, a device that resembles – to human eyes, at least – an oversized set of cricket stumps... From Earth to Gallifrey, from Bethselamin to Devalin, from Krikkit to Mareeve II to the far edge of infinity, the Doctor and Romana are tugged into a pan-galactic conga with fate as they rush to stop the Krikkitmen gaining all five pieces of the key. If they fail, the entire cosmos faces a fiery retribution that will leave nothing but ashes... From Douglas Adams, the legendary author of one of the most beloved science fiction novels of all time, *The Hitchhiker's Guide to the Galaxy*, comes a wildly inventive novel—in trade paperback for the first time—of ghosts, time travel, and one detective's mission to save humanity from extinction. Quirky and bumbling private investigator Dirk Gently stumbles upon a ghost, millions of years old, wandering the earth and disturbing its people. Dirk soon discovers this phantom yearns for more than a good haunting: it is desperately trying to go back in time to prevent its own death. But this ghost was no ordinary person, and helping it save itself just might change the modern world as we know it. And not in a good way... Endlessly entertaining, Dirk Gently's Holistic Detective Agency proves that, indeed, “ few writers have had such an infectious prose style as Adams ” (The Observer). As Dirk Gently tries to solve the mysteries

of the universe and the human soul, readers will have their own mystery to solve: Where did the time go? On some days, New York is one of the most beautiful places on Earth. This was one of the other days... Melody Malone, owner and sole employee of the Angel Detective Agency, has an unexpected caller. It's movie star Rock Railton, and he thinks someone is out to kill him. When he mentions the 'kiss of the Angel', she takes the case. Angels are Melody's business... At the press party for Railton's latest movie, studio owner Max Kliener invites Melody to the film set of their next blockbuster. He's obviously spotted her potential, and Melody is flattered when Kliener asks her to become a star. But the cost of fame, she'll soon discover, is greater than anyone could possibly imagine. Will Melody be able to escape Kliener's dastardly plan – before the Angels take Manhattan? Andrew Skilleter, this is essential reading for all Whovians. At the age of 5, Skagra decided emphatically that God did not exist. This revelation tends to make most people in the universe who have it react in one of two ways - with relief or with despair. Only Shagra responded to it by thinking, "Wait a second. That means there's a situation vacant." This epic "lost" adventure from 1979 features the Fourth Doctor and Romana as played by Tom Baker and Lalla Ward, written by Doctor Who's then script editor Douglas Adams.-- Cover. The Doctor brings Romana to present day Earth to visit Professor Chronotis, an elderly Time Lord living a quiet academic life as a professor at St. Cedd's College in Cambridge after fleeing Gallifrey. But the Doctor isn't the only one looking for Chronotis--a scientist called Skagra is looking to steal his mind and find the location of a book called *The Worshipful and Ancient Law of Gallifrey*. An original novel set in the universe of the smash-hit British sci-fi show *Doctor Who*, featuring BBC-authorized official cover art and storylines, timed to coincide with exploding U.S. interest in the show, From the unique mind of Douglas Adams, legendary author of *The Hitchhiker's Guide to the Galaxy*, comes *Shada*, a story scripted for the television series *Doctor Who* but never produced—and now transformed into an original novel. A little knowledge is a dangerous thing. Imagine how dangerous a LOT of knowledge is... The Doctor's old friend and fellow Time Lord, Professor Chronotis, has retired to Cambridge University, where among the other doddering old professors nobody will notice if he lives for centuries. He took with him a few little souvenirs—harmless things really. But among them, carelessly, he took *The Worshipful and Ancient Law of Gallifrey*. Even more carelessly, he has loaned this immensely powerful book to clueless graduate student Chris Parsons, who intends to use it to impress girls. *The Worshipful and Ancient Law* is among the most dangerous artifacts in the universe; it cannot be allowed to fall into the wrong hands. The hands of the sinister Skagra are unquestionably the wrongest ones possible. Skagra is a sadist and an egomaniac bent on universal domination.
