Writing by Numbers May 08 2023 "This book aims to demystify the legal writing process by providing concrete formulas-both macro and micro formulas-for mastering the content required for objective and persuasive legal analysis. The "macro" formula we start with in this book is CRAC, which stands for Conclusion ("C"), Rule ("R"), Analysis ("A"), and Conclusion ("C"). Within this macro formula, we use "micro" formulas to help you draft the different parts of CRAC. This book also takes different parts of legal work product, such as the introduction to a motion or the question presented of an objective memo, and breaks those parts down into components so that you can see how they are put together and then can write your own by applying those basic constructs. At each juncture of your legal writing journey, this book will give you a roadmap to follow (and a step-by-step list of directions) such that you will never feel completely lost and never find yourself faced with an entirely blank page"--

Chinese Characters Made Easy May 16 2021 This highly-visual book introduces an effective new method for learning Chinese characters using visual stimuli and pictographs. Learning the basic characters used to write even simple Chinese sentences can be a long and arduous process. Chinese Characters Made Easy makes the learning process fun and easy by presenting the 1,000 most common characters using a new mnemonic approach that associates each character with a memorable visual and verbal clue—making memorization easy. The character for person, for example, is superimposed over a sketch of a man representing "a person standing on two legs"—drawing the reader's attention to the distinctive shape of the character and associating the sketch with the character's meaning. The Chinese characters are presented in groups or clusters all sharing common elements and meanings, for context and ease of identification. These groups of characters all share common root symbols known as radicals, or relate to a particular theme or topic such as colors, numbers, animals, or body parts. Pronunciations, meanings and vocabulary compounds are provided for each character in the group. A free audio CD provides native-speaker pronunciations for all the characters and their associated vocabulary. A short introduction explains the history and structure of the Chinese writing system. This Chinese character book's visual approach is a powerful learning tool. It can be used by serious students and is entertaining and useful to general readers who are curious about how the Chinese writing system works and how it developed.
