Symbols and Magic in the Arts of Kabyle Women Oct 01 2022

Makilam's research on the history of women and Berber culture, one of North Africa's most ancient civilizations, demonstrates that the Kabyle women's magic practices, graphic symbols, and rites of passage permit a new interpretation of their cultural identity from those that have traditionally been attributed to them by Western observers. This completely new vision of the symbolic grammar of the «decorations, » notably expressed in pottery, weaving, tattoos, and wall-paintings, leads us to reconsider the meaning of the Kabyle arts and contributes to our knowledge of Maghreb cultures and the role of women in «traditional» societies.

Why the French Love Jerry

Lewis Jun 04 2020 Vividly bringing to light the tradition of physical comedy in the French cabaret, cafe-concert, and early French film comedy, this book answers the perplexing question, "Why do the French love Jerry Lewis?" It shows how Lewis touches a nerve in the French cultural memory because, more than any other film comic, he incarnates a distinctively French tradition of performance style."

The Great European Stage

Directors Volume 7 Apr 26

2022 This volume offers a compelling account of Jean-Louis Barrault, Ariane Mnouchkine and Peter Stein, who not only won international recognition as directors whose repertoires ranged from classical Greek to Shakespeare

to the avant-garde, but also succeeded as leaders of their own companies. The ensembles they nurtured and kept afloat despite setbacks represent the artistic vision of each: the Compagnie Madeleine Renaud-Jean-Louis Barrault, the Théâtre du Soleil and the Schaubühne. Selected landmark productions illuminate the achievements of these 3 directors and their companies.

Écriture céleste Feb 10 2021

Inventée par les Mésopotamiens pour dialoguer avec leurs dieux et déesses par l'entremise des corps célestes, l'astrologie servait à relier l'Homme à un ordre de choses qui le dépasse. La civilisation occidentale en intégra la vaste mythologie pour penser et organiser le monde naturel et surnaturel en catégories qui font sens. L'astrologie compte ainsi parmi les tout premiers systèmes de modélisation de la réalité. Ce livre explore l'histoire de l'astrologie occidentale pour tenter d'évaluer la fonction de l'astronomie poétique au xxie siècle. Cinq mille ans après son invention, peut-elle encore servir d'inspiration pour donner sens aux choses et aux expériences qui nous dépassent ? Les questions du déterminisme et du libre arbitre, du rôle des mythes et

des symboles, de l'importance de la découverte de l'inconscient au siècle passé y sont aussi posées. Un exposé approfondi du langage astrologique avec les éléments, les planètes, les signes, les maisons et les aspects invite à une réflexion personnelle sur les images du zodiaque qui stimulent l'imagination créative et ouvrent de nouvelles perspectives pour faire face à l'existence. S'adressant aux novices comme aux experts, dans un style fluide et accessible, Christine Gonze Conrad propose un essai passionnant sur un art qui n'a pas fini d'interpeller. Formée à l'astrologie humaniste et à la psychologie de C. G. Jung et de James Hillman, l'auteur se réclame d'une astrologie archétypale visant à encourager le cheminement psychologique et spirituel par la connaissance de soi et la compréhension de l'autre.

Josephine Baker and Katherine Dunham Jan 04 2023 Josephine Baker and Katherine Dunham were the two most acclaimed and commercially successful African American dancers of their era and among the first black women to enjoy international screen careers. Both also produced fascinating memoirs that provided vital insights into their artistic philosophies and choices. However, difficulties in accessing and categorizing their works on the screen and

on the page have obscured their contributions to film and literature. Hannah Durkin investigates Baker and Dunham's films and writings to shed new light on their legacies as transatlantic artists and civil rights figures. Their trailblazing dancing and choreography reflected a belief that they could use film to confront racist assumptions while also imagining—within significant confines—new aesthetic possibilities for black women. Their writings, meanwhile, revealed their creative process, engagement with criticism, and the ways each mediated cultural constructions of black women's identities. Durkin pays particular attention to the ways dancing bodies function as ever-changing signifiers and de-stabilizing transmitters of cultural identity. In addition, she offers an overdue appraisal of Baker and Dunham's places in cinematic and literary history.

Suffering Scholars Aug 19 2021 As early as Aristotle's *Problem XXX*, intellectual superiority has been linked to melancholy. The association between sickness and genius continued to be a topic for discussion in the work of early modern writers, most recognizably in Robert Burton's *The Anatomy of Melancholy*. But it was not until the eighteenth century that the phenomenon known as the "suffering scholar" reached its apotheosis, a phenomenon illustrated by the popularity of works such as Samuel-Auguste Tissot's *De la santé des gens de lettres*, first published in 1768.

Though hardly limited to French-speaking Europe, the link between mental endeavor and physical disorder was embraced with particular vigor there, as was the tendency to imbue intellectuals with an aura of otherness and detachment from the world. Intellectuals and artists were portrayed as peculiarly susceptible to altered states of health as well as psyche—the combination of mental intensity and somatic frailty proved both the privileges and the perils of knowledge-seeking and creative endeavor. In *Suffering Scholars*, Anne C. Vila focuses on the medical and literary dimensions of the cult of celebrity that developed around great intellectuals during the French Enlightenment. Beginning with Tissot's work, which launched a subgenre of health advice aimed specifically at scholars, she demonstrates how writers like Voltaire, Diderot, Rousseau, and Mme de Staël, responded to the "suffering scholar" syndrome and helped to shape it. She traces the ways in which this syndrome influenced the cultural perceptions of iconic personae such as the philosophe, the solitary genius, and the learned lady. By showing how crucial the so-called suffering scholar was to debates about the mind-body relation as well as to sex and sensibility, Vila sheds light on the consequences book-learning was thought to have on both the individual body and the body politic, not only in the eighteenth century but also into the decades following the Revolution.

Josephine Baker and the Rainbow Tribe Aug 31 2022 Her performing days numbered, Josephine Baker did something outrageous: she transformed her chateau into a theme park whose main attraction was her Rainbow Tribe--12 children from around the globe, adopted as the family of the future. Matthew Pratt Guterl concludes that Baker was a serious activist, determined to make a positive difference.

Paris and the Cliché of History

Sep 19 2021 Paris and the Cliché of History traces the changing historical meanings of photographs of this city during a century marked by urban renovation, war, occupation, liberation, and visual documentation. Challenging the idea that photographs merely document the past, it calls for new methods of reading photos as material objects with histories of their own and sheds insight on the capital's reduction to an image in the twentieth century.

The Potato Feb 22 2022 The Potato tells the story of how a humble vegetable, once regarded as trash food, had as revolutionary an impact on Western history as the railroad

or the automobile. Using Ireland, England, France, and the United States as examples, Larry Zuckerman shows how daily life from the 1770s until World War I would have been unrecognizable--perhaps impossible--without the potato, which functioned as fast food, famine insurance, fuel and labor saver, budget stretcher, and bank loan, as well as delicacy. Drawing on personal diaries, contemporaneous newspaper accounts, and other primary sources, this is popular social history at its liveliest and most illuminating.

Instants d'une vie Nov 09 2020

Napoleon May 28 2022 The definitive biography of Napoleon, revealing the true man behind the legend "What a novel my life has been!" Napoleon once said of himself. Born into a poor family, the callow young man was, by twenty-six, an army general. Seduced by an older woman, his marriage transformed him into a galvanizing military commander. The Pope crowned him as Emperor of the French when he was only thirty-five. Within a few years, he became the effective master of Europe, his power unparalleled in modern history. His downfall was no less dramatic. The story of Napoleon has been written many times. In some versions, he is a military genius, in others a war-obsessed tyrant. Here, historian Adam Zamoyski cuts through the mythology and explains Napoleon against the background of the

European Enlightenment, and what he was himself seeking to achieve. This most famous of men is also the most hidden of men, and Zamoyski dives deeper than any previous biographer to find him.

Beautifully written, Napoleon brilliantly sets the man in his European context.

Jung in Contexts Jan 24 2022

This is a unique collection of the most important essays on Jung and analytical psychology over the past two decades. The essays place Jung, the man and his work, in three important contexts: historical, literary and intellectual.

Bookseller Mar 14 2021 Vols. for 1871-76, 1913-14 include an extra number, The Christmas bookseller, separately paged and not included in the consecutive numbering of the regular series.

Proust's Duchess Apr 02 2020

From the author of the acclaimed Queen of Fashion--a brilliant look at the glittering world of turn-of-the-century Paris through the first in-depth study of the three women Proust used to create his supreme fictional character, the Duchesse de Guermantes. Geneviève Halévy Bizet Straus; Laure de Sade, Comtesse de Adhéaume de Chevigné; and Élisabeth de Riquet de Caraman-Chimay, the Comtesse Greffulhe--these were the three superstars of fin-de-siècle Parisian high society who, as Caroline Weber says, "transformed themselves, and were transformed by those

around them, into living legends: paragons of elegance, nobility, and style." All well but unhappily married, these women sought freedom and fulfillment by reinventing themselves, between the 1870s and 1890s, as icons. At their fabled salons, they inspired the creativity of several generations of writers, visual artists, composers, designers, and journalists. Against a rich historical backdrop, Weber takes the reader into these women's daily lives of masked balls, hunts, dinners, court visits, nights at the opera or theater. But we see as well the loneliness, rigid social rules, and loveless, arranged marriages that constricted these women's lives. Proust, as a twenty-year-old law student in 1892, would worship them from afar, and later meet them and create his celebrated composite character for *The Remembrance of Things Past*. *Jung and Intuition* Jun 28 2022 Jung and Intuition examines for the first time the twelve categories of intuition described in both the works of C. G. Jung and the post-Jungians. Nowhere, other than in Jung's own work, has intuition been more fully treated. Each form of intuition is critically explained in the historical context of its appearance and located in one of the four spheres of Jung's psychology: the unconscious, the subconscious (Unterbewusste), consciousness, and Jungian and post-Jungian practice. This work brings Jung's entire psychology in all its depth from 1896 to its contemporary use

into greater clarity for both professionals and lay readers. The author persuasively shows that intuition is at the heart of Jung's psychology. It is central to his concept of the archetypes as well as to his understanding of the subconscious and the active imagination. It also involves both clinical and philosophical approaches, as powerfully demonstrated by his pioneering work at the Burgholzli Klinik in Zurich. *Catalog of Copyright Entries. Third Series* Sep 07 2020 *American Ecclesiastical Review* May 16 2021 *The Soul of Art* Dec 23 2021 The beginnings of art are lost in the dim reaches of prehistory, eons before humans began recording and codifying their experiences in writing. And yet philosophers, artists, and historians have for centuries noted the intimate and perhaps inseparable relationship between human consciousness and the artistic impulse. As analyst and professor Christian Gaillard notes, we can see some of the earliest expressions of this intimacy in the cave paintings at Lascaux, and the relationship continues to the present day in the works of modern creators such as Jackson Pollock and Anselm Kiefer. What fascinates Gaillard—and, indeed, what fascinated Carl Jung—is, among other things, the notion that art enables us to explore our inner landscapes in ways that are impossible by any other means. In *The Soul of Art: Analysis and Creation*, Gaillard takes readers on a tour

of his own "gallery of the mind," examining works of art from throughout history—and prehistory—that have moved, challenged, and changed him. He also explores instances where particular works of art have proven deeply significant in his or his colleagues' understanding of their analyses and their ability to serve as capable guides on the journey toward self-awareness.

Mists of Regret Apr 07 2023 Just before World War II, French cinema reached a high point that has been dubbed the style of "poetic realism." Working with unforgettable actors like Jean Gabin and Arletty, directors such as Renoir, Carné, Gremillon, Duvivier, and Chenal routinely captured the prizes for best film at every festival and in every country, and their accomplishments led to general agreement that the French were the first to give maturity to the sound cinema. Here the distinguished film scholar Dudley Andrew examines the motivations and consequences of these remarkable films by looking at the cultural web in which they were made. Beyond giving a rich view of the life and worth of cinema in France, Andrew contributes substantially to our knowledge of how films are dealt with in history. Where earlier studies have treated the masterpieces of this era either in themselves or as part of the vision of their creators, and where certain recent scholars have reacted to

this by dissolving the masterpieces back into the system of entertainment that made them possible, Andrew stresses the dialogue of culture and cinema. In his view, the films open questions that take us into the culture, while our understanding of the culture gives energy, direction, and consequence to our reading of the films. The book demonstrates the value of this hermeneutic approach for one set of texts and one period, but it should very much interest film theorists and film historians of all sorts.

Dances with Darwin, 1875-1910 May 04 2020
Examining the influence of Darwin's evolutionary theory on French thought, Rae Beth Gordon weaves the history of medical science, ethnology, and popular culture into an exploration of the cultural implications of gesture in dance performances in Parisian café-concerts and music-halls. She illuminates the blurring of racial lines in the representations of the primitive

and of nervous pathology that informed dances like the Cake-Walk. These dances with Darwin, she contends, constituted an aesthetic of disorder long before Dada and Surrealism.

Cléo de Mérode and the Rise of Modern Celebrity Culture

Oct 09 2020 The first English-language monograph on the French dancer and model, Cléo de Mérode and the Rise of Modern Celebrity Culture explores the haunting legacy of this intriguing and glamorous figure, an international celebrity at the dawn of our star-struck modernity. Situating Mérode at a pivotal moment in the history of fame and visual culture, this study probes the neglected prehistory of a visual culture obsessed with celebrities and their images.

Daughters of Eve Mar 06 2023
Famous and seductive, female stage performers haunted French public life in the century before and after the Revolution. This pathbreaking study delineates the distinctive place of actresses, dancers, and singers within the French erotic and political imaginations. From the moment they became an unofficial caste of mistresses to France's elite during the reign of Louis XIV, their image fluctuated between emasculating men and delighting them. Drawing upon newspaper accounts, society columns, theater criticism, government reports, autobiographies, public rituals, and a huge corpus of fiction,

Lenard Berlanstein argues that the public image of actresses was shaped by the political climate and ruling ideology; thus they were deified in one era and damned in the next. Tolerated when civil society functioned and demonized when it faltered, they finally passed from notoriety to celebrity with the stabilization of parliamentary life after 1880. Only then could female fans admire them openly, and could the state officially recognize their contributions to national life. *Daughters of Eve* is a provocative look at how a culture creates social perceptions and reshuffles collective identities in response to political change. Table of Contents: Acknowledgments Introduction 1 Setting the Scene 2 Theater Women and Aristocratic Libertinism, 1715-1789 3 Defining the Modern Gender Order, 1760-1815 4 Magdalenes of Postaristocratic France, 1815-1848 5 The Erotic Culture of the Stage 6 The Struggle against Pornocracy, 1848-1880 7 Imagining Republican Actresses, 1880-1914 8 Performing a Self 9 From Notorious Women to Intimate Strangers Conclusion Notes Index Reviews of this book: Students of French literature and culture will welcome this study of female performers, women who historically achieved great prominence because of their sexuality and public presence. Yet this is much more than simply a descriptive history. Berlanstein...puts theater women into the context of the evolving French debate over

the role of women in the public sphere...This fascinating new work is an important addition to the scholarship on French gender history. Recommended

for specialists in French history and culture. --Library Journal
