Grammar to Get Things Done Jan 14 2021 CO-PUBLISHED BY ROUTLEDGE AND THE NATIONAL COUNCIL OF TEACHERS OF ENGLISH *Grammar to Get Things Done* offers a fresh lens on grammar and grammar instruction, designed for middle and secondary pre-service and in-service English teachers. It shows how form, function, and use can help teachers move away from decontextualized grammar instruction (such as worksheets and exercises emphasizing rule-following and memorizing conventional definitions) and begin considering grammar in applied contexts of everyday use. Modules (organized by units) succinctly explain common grammatical concepts. These modules help English teachers gain confidence in their own understanding while positioning grammar instruction as an opportunity to discuss, analyze, and produce language for real purposes in the world. An important feature of the text is attention to both the history of and current attitudes about grammar through a sociocultural lens, with ideas for teachers to bring discussions of language-as-power into their own classrooms.

The text addresses the most frequent usage errors by explaining how to distinguish between adjectives and adverbs; how to avoid problems of pronoun case, agreement, and consistency; how to ensure that verbs will agree with their subjects and will be

appropriate in terms of tense, aspect, voice, and mood; and how to phrase sentences to avoid errors in parallelism or placement of modifiers. Six appendices incorporate further exercises, a summary of key basics from the text, and supplemental material not included in the body of the text but useful for quick reference. Cocky Jerk May 06 2020 It was just a typical manic Monday until the blue and red lights flashed behind my Harley. The cop who pulled me over was good-looking, if you're into clean cut guys with expressive eyes. He was also cocky and gave me three tickets. One for speeding. Another for blowing a light. And the third for not producing an insurance card. Jerk. When he finally let me go, I realized I was more than an hour late for my first day as an intern for the infamous advice column, Ask Ida. So

much for trying to be the only one in my family with a legit job. Lucky for me, my new boss, Soraya, didn't fire me on the spot. But that's where my luck ran out. A couple of weeks later, in between fetching coffee and finding the missing paperclips, I received a text message from my dad, the president of the Corrupt Hellraisers MC, ordering me to the compound. Yeah, try explaining that to your new boss. Hey, I've gotta go. Everyone in my family is a criminal and we're all on lockdown. You're fired. Sure enough when I arrived at the clubhouse, everyone was in cuffs and the jerk who pulled me over was the one ushering my father out of the clubhouse. They say you never see the bad guys coming. Well, I didn't see the cocky jerk coming either.

The Acquisition of Complex Sentences Aug 09 2020

This book presents a comprehensive study of how children acquire complex sentences. Drawing on observational data from English-speaking children aged 2 to 5, Holger Diessel investigates the acquisition of infinitival and participial complement clauses, finite complement clauses, finite and nonfinite relative clauses, adverbial clauses, and coordinate clauses. His investigation shows that the development of complex sentences originates from simple non-embedded sentences and that two different developmental pathways can be distinguished: complex sentences including complement and relative clauses evolve from simple sentences that are gradually expanded to multiple-clause constructions, and

complex sentences including adverbial and coordinate clauses develop from simple sentences that are integrated in a specific biclausal unit. He argues that the acquisition process is determined by a variety of factors: the frequency of the various complex sentences in the ambient language, the semantic and syntactic complexity of the emerging constructions, the communicative functions of complex sentences, and the social-cognitive development of the child.

Gradual Lessons in Grammar, Or Guide to the Construction of the English Language (Classic Reprint) Jul 20 2021 Excerpt from Gradual Lessons in Grammar, or Guide to the Construction of the English Language The pupil should first construct a simple sentence, consisting only of a subject and predicate; then introduce the several classes of limiting words, one at a time, till he is familiar with all, and with their relations to the words they limit. Next, let him construct compound sentences, till the connection or dependence of clauses is rightly understood, with their limiting or modifying power. Thus, he will become acquainted with the fact, unencumbered by technical terms. He will learn the dependences of words and clauses and his mind will be strongly exercised on these great and prominent features of thought, without being bewildered by the intricacies of the minor distinctions which are involved in these relations.
