Handbook of Solvents Sep 03 2020 This handbook will be of special interest to:
Solvent Formulators/Manufacturers ? Industrial and Environmental
Chemists/Industrial Hygienists ? Safety Regulators ? Purchasing Agents This
reference serves as an integrated reference tool for decision making in
formulation, purchasing, and the understanding of safety issues by providing
current and in-depth information on solvent products. It comprehensively
describes more than 3000 trade name products and chemicals that are used as
solvents in all aspects of industry including: Industrial and Consumer
Cleaning/Degreasing ? Automotive and Aviation Fuel Additives, Electronics ?
Printing Inks ? Paints and Coatings ? Plastics and Rubber products Adhesives ?
Textiles ? Pharmaceuticals ? Cosmetics ? Food Processing. This practical

resource provides a single source for professionals involved in solvent acquisition and use.

Breakthrough: Corporate South Africa in a Green Economy Jul 26 2022 This book addresses hot issues pertaining to the manner in which corporate South Africa has engaged the emerging green global economy. Firstly, the book profiles the green and low carbon economy landscape in South Africa and interfaces it with global trends. This way, the book aligns very well in terms of the Rio+20 outcomes on 'The Future We Want' that fully embraces the green global economy in the context of sustainable development and poverty eradication. The rest of the chapters in the book profile breakthroughs from selected companies. The book also comes as the second in a series that is addressing global and national concerns on the green global economy agenda. The first book entitled 'Green Economy and Climate Mitigation: Topics of Relevance to Africa' was produced as part of the 17th Session of the Conference of Parties' collaborative work carried out by the Institute of Global Dialogue, the Africa Institute of South Africa and Unisa's Institute for Corporate Citizenship. The book 'Breakthrough: Corporate South Africa in the Green Economy' comes in seven parts. Part I focuses on the Green Economy Landscape. This part considers both the international and national perspectives. Parts II-VI present different sector initiatives namely: Mining and Energy (Part II), Banking and Insurance (Part III), Forest and Paper (Part IV), Industrial (Part V) and Retailing and Aviation (Part VI). The last part is made up of a single chapter dealing with Emerging Issues and Way Forward.

Exploring the link between poverty and human rights in Africa Feb 27 2020 About the publication This book addresses poverty, one of the important issues confronting Africa, from a multi-disciplinary approach. With contributions from eminent scholars from diverse backgrounds, the book explores poverty from a human rights perspective. Its central message is that poverty is not necessarily a failure on the part of an individual, but rather caused by the actions or inactions of governments, which are often exacerbated by structural inequalities in many African societies. This in turn requires a more pragmatic approach grounded in respect for human rights. Exploring the link between poverty and human rights in Africa will be useful to researchers, policymakers, students, activists and others interested in addressing poverty. Table of Contents PREFACE viii

ACKNOWLEDGMENTS x CONTRIBUTORS xi 1. General introduction to poverty and human rights in Africa Ebenezer Durojaye & Gladys Mirugi-Mukundi 1 Introduction 2 Understanding poverty 3 Nexus between poverty and human rights 4 Significance of this book 4.1 The relevance 5 Overview of the book 5.1 Section I: Trends and incidence of poverty in Africa 5.2 Section II: Poverty and socio-economic rights 5.3 Section III: Poverty and vulnerable groups 5.4 Section IV: Poverty and access to justice 2. Integrating a human rights approach to food security in national plans and budgets: The South African National Development Plan Julian May 1 Introduction 2 Human rights and food security 3 Development

planning and human rights 4 The components of budgeting for human rights 4.1 Diagnostic analysis 4.2 Identifying interventions and budget prioritisation 4.3 Estimating the financial costs of achieving food security 4.5 Estimating social and economic benefits 5 Public expenditure management for food security 5.1 Fiscal and monetary policy 5.2 Multi-year budgeting 6 Conclusion 3. Is South Africa winning the war on poverty and inequality? What do the available statistics tell us? Emmanuel Sekyere, Steven Gordon, Gary Pienaar & Narnia Bohler-Muller 1 Introduction 1.1 Income inequality in South Africa 2 Poverty and human development trends in South Africa 2.1 South African Social Attitudes Survey: Perceptions of poverty 2.2 Human development 3 Access to services 4 Addressing social inequality in South Africa 4.1 Addressing income inequality in South Africa 4.2 Addressing human development challenges 4.3 Addressing service delivery 5 Conclusion and summary of findings 4. Who really 'state-captured' South Africa? Revealing silences in poverty, inequality and structurally-corrupt capitalism Patrick Bond 1 Introduction 2 Inequality, the state and its 'capture' 3 The political economy of the capitalist state 4 World Bank inequality denialism 5 The fight between hostile brothers: The 'Zuptas' and 'White Monopoly Capital' 6 Social resistances 5. Poverty, women and the human right to water for growing food Ngcimezile Mbano-Mweso 1 Introduction 2 The human right to water 2.1 Recognition in international law 2.2 Definition and content: Is there a right to water for growing food? 2.3 Normative content of the human right to water for growing food 3 Conclusion 6. The link between environmental pollution and poverty in Africa Olubayo Oluduro 1 Introduction 2 Legal framework for the protection of the environment in Africa 3 Nature of environmental pollution in Africa 3.1 Environmental pollution in Africa: Case studies of some countries 4 Nexus between pollution and poverty 4.1 Environmental pollution leads to diversion of labour 4.2 Increased burden of disease in poor countries 4.3 Problem of food security 4.4 Right to safe drinking water 5 Protecting the environment to fight poverty and achieve the Sustainable Development Goals 6 Recommendations 6.1 Political commitment 6.2 Promotion of education and information sharing 6.3 Eliminating poverty 7 Conclusion 138 7. Alleviating poverty through retirement reforms Kitty Malherbe 1 Introduction 2 Poverty among older persons 3 Current social security provision for older persons 4 Arguments for the reform of the current retirement income system 5 Proposed retirement reforms 5.1 Comprehensive social security and retirement reform process 5.2 Reforms proposed by National Treasury 6 Constitutional principles guiding reforms 6.1 Coordinated approach 6.2 Inclusivity 6.3 Progressive realisation 6.4 Governance and accountability 6.5 Availability of resources 6.6 'Lifespan' view to addressing poverty 7 Potential impact of social security and retirement income reforms 8. Disability, poverty and human rights in Africa: Opportunities for poverty reduction from the UN Convention on the Rights of Persons with Disabilities Enoch M Chilemba 1 Introduction 2 Poverty, disability and human rights link in Africa 2.1 Persons with disabilities in Africa: Among the

poorest of the poor 2.2 Poverty, disability and human rights linkage 3 Utilising the opportunities from CRPD in countering obstacles relating to disability and poverty in Africa 3.1 Fostering equality and non-discrimination to reduce poverty 3.2 Fostering inclusive education to eradicate poverty 3.3 Enhancing employment in the open labour market to eradicate poverty 3.4 Ensuring social protection to reduce poverty 4 Conclusion 188

9. The co-existence of gender inequality and poverty Nomthandazo Ntlama 1 Introduction 2 SADC's transformative vision in eliminating gender inequalities and poverty 2.1 Reducing poverty and eliminating gender inequality: A mammoth task 2.2 Towards a transformative region: Advancing the principles of the community of nations 3 Conclusion 10. The potential of the African human rights system in addressing poverty Bright Nkrumah 1 Introduction 2 Norm creation and norm enforcement: Issues and implications 2.1 Normative framework for addressing poverty 2.2 African Charter on Human and Peoples' Rights 2.3 Little angels: African Charter on the Rights and Welfare of the Child 2.4 Protocol to the African Charter on Human and Peoples' Rights on the Rights of Women in Africa 3 Other instruments relating to poverty 3.1 AU Convention on Preventing and Combating Corruption (Anti-Corruption Convention) 3.2 Declaration on Employment and Poverty Alleviation in Africa 3.4 Comprehensive African Agriculture Development Programme 4 Institutional frameworks for addressing poverty 4.1 African Commission on Human and Peoples' Rights 4.2 African Committee of Experts on the Rights and Welfare of the Child 4.3 African Court on Human and Peoples' Rights 4.4 Need for complementarity: The road not taken 5 Other related mechanisms 5.1 New Partnership for Africa's Development 5.2 African Peer Review Mechanism 6 International best practice dealing with poverty 7 Concluding reflections 11. Realising access to justice for the poor: Lessons from working with rural communities Victoria Balogun 1 Introduction 2 What is access to justice for the poor? 3 How are non-profit organisations such as the Centre for Community Justice and Development promoting access to justice in South Africa post-1994? 4 Are there any barriers to access to justice and do they have any implication(s) for the poor in poor communities? 5 The intersection between poverty and access to justice for poor communities 6 Access to justice, the role of legal aid offices and the commitment to serve the poor in poor communities 7 Equality and access to justice for the poor 8 Conclusion 12. The role of the South African Human Rights Commission in ensuring state accountability to address poverty Rachael Adams 1 Introduction 2 Poverty and human rights 2.1 International human rights law 2.2 Poverty and human rights in South Africa 2.3 Socio-economic rights 3 What do we mean by state accountability? 3.1 State accountability 4 South African Human Rights Commission 4.1 Mandate and functions 4.2 Reporting requirements 5 Structures of accountability 5.1 Complaints 5.2 Reporting 6 Inequality and intersectional discrimination 6.1 Interdependence of rights and the role of government 7 Conclusion: The role of the South African Human Rights Commission

Embedding Human Rights Into Business Practice Oct 17 2021 Features 20 case studies from around the world outlining policies and practices to implement human rights within business operations. Among the companies profiled are: ABB, Achilles, AngloGold Ashanti, AREVA, Barloworld, BASF, Eskom, Ipek Kagit, Ketchum, MAS Holdings, Newmont Mining Corporation, NIKE Inc, Novartis, Sasol, Royal Dutch Shell, Starbucks, Titan Industries, Volkswagen and Westpac Banking Corporation.

Biojet Fuel in Aviation Applications Mar 22 2022 Biojet fuels have the potential to make an important contribution towards decarbonising the aviation sector. Biojet Fuel in Aviation Applications: Production, Usage and Impact of Biofuels covers all aspects of this sustainable aviation fuel including aviation biofuel public policies, production technologies, physico-chemical properties, combustion performances, techno-economics of sustainable fuel production, sustainability and energywater-food (EWF) nexus. This must-have book also charts the current state of the industry by discussing the relevant industry players who are currently producing alternative aviation fuels and flight tests, while also providing a glimpse of the future of the industry. This comprehensive book is written for undergraduate students, postgraduate students, researchers, engineers and policy makers wanting to build up knowledge in the specific area of biojet fuel or the broader fields of sustainable energy and aeronautics. Reviews major aviation and biojet fuel policies, legislations, initiatives and roadmaps around the world Features existing and emerging biojet fuel production pathways from various feedstocks Highlights the key properties of biojet fuels that ensures interoperability with conventional jet aviation fuel Discusses the economic aspects of the biojet fuel industry and the barriers preventing its commercialisation Examines the sustainability of biojet fuel from a life cycle assessment, energy balance and EWF nexus point of views

The Balancing of Interests in Environmental Law in Africa Jul 14 2021 "Now that economic development is starting to pick up in many countries in Africa, the question arises how such development can be balanced with the need for adequate environmental protection. This crucial issue, inherent in the notion of sustainable development, is addressed in this innovative and path-breaking volume. For the first time, academics from seventeen African countries have joined forces to analyse the way in which economic and environmental interests are balanced in their legal systems. The authors all use a common framework to improve the comparability of the country studies. The different country-related chapters do not only provide insights into the formally applicable legal rules (law in the books), but given that the book brings together academics aware of the practice in Africa, they also describe the way in which environmental policy functions in practice (law in action). Many case studies, with conceptual analyses are provided of pollution incidents and the way in which administrative agencies or courts have on those occasions balanced the interests between the economy, society and the environment. A critical comparative analysis by the editors points

at tendencies towards convergence and points of divergence between the African countries. Suggestions for policy reform are also formulated, showing African countries how they can benefit from experiences in the US and Europe. This thought provoking volume is a must for anyone (academic, policymaker or practitioner) interested in sustainable development generally and in Africa in particular."--P. [4] of cover.

Directory of Corporate Counsel, 2023 Edition Jan 26 2020

ECM Technology Mar 10 2021 « Enterprise Content Management (ECM) describes a critical new segment in Information Technology. ECM is about the management of words—words that make up more than 90 percent of information in organizations today. Businesses are turning to ECM as the next major software productivity tool to effectively manage the explosion of digital content. This book discusses unlocking digital content. It focuses on the quality controls and productivity enhancements realized when secure Internet technology is used to deploy an ECM solution. The book considers current and future trends in ECM including corporate governance and regulatory compliance. A must-read for executives interested in managing content to achieve compliance, improve productivity, and foster innovation and future growth. »--

Juta's Index and Annotations to the South African Law Reports Nov 05 2020

Sustainable Management of Mining Operations Jan 20 2022 The pressure is on to enhance corporate reputations, achieve higher operational efficiency, improve planning and control, gain access to mineral resources, build trust with stakeholders, attract financing, recruit and retain a quality workforce, and lower costs. Sustainable Management of Mining Operations provides a holistic, practical approach to achieving these goals. The key, say the authors, is to create a culture within the organization that recognizes the value of sustainability by effectively integrating economic, environmental, and social considerations. Each section of this book focuses on sustainable management from a different perspective, management level, or stage of the mine life cycle. You'll benefit from real-life, practical insights from 27 internationally respected authors whose job titles have encompassed everything from CEO to master mechanic.

Ownership and Governance of Companies Feb 18 2022 Apartheid South Africa was often thought to run in the interests of the business elite. Yet 27 years after apartheid, those business interests remain largely entrenched. Why? Did the South African business community play a role in engineering this outcome – perhaps recognising the apartheid era was over, and jumping ship in time? Conversely, the mission of the ANC was widely perceived to be to shift wealth and power into the hands of the whole community. Yet despite 'black empowerment' measures, corporate ownership remains largely in white hands – and certainly in the hands of an elite few, even though no longer restricted to whites. This picture is replicated across the global south, where corporate ownership tends to be concentrated in the hands of an elite, rather than being more democratically spread. Why have alternative corporate forms not been

pursued more vigorously, with ownership in the hands of customers, employees, and local communities? In the case of South Africa, where the majority of customers and employees are black, this could have delivered on the ANC's mission to replace the apartheid era with a democratic one – in terms of wealth, incomes and power, as well as in terms of voting and civic rights. This edited volume explores all these questions and looks at ways to align corporate forms with economic and social goals. The chapters in this book were originally published as special issues of *International Review of Applied Economics*.

Varieties of Capitalism Over Time Mar 29 2020 This book looks at how varieties of capitalism emerge over time and across different geographies, and is comprised of submissions from scholars around the globe. Covering a wide range of territories including Europe, the Americas, Africa, and Asia across both the nineteenth and twentieth centuries, this edited volume considers the roles that the state and business working together play in the emergence of different economic systems. Whilst most analyses focus on identifying different types of capitalism, the chapters in this volume instead focus on how these different types develop, the drivers of their emergence, and the people and organisations behind the developments. The geographical spread of analyses allows the reader to delve into how different countries have managed and even created their economic systems providing comparative insights into our understanding of how different national economic models develop over time. This book was originally published as a special issue of *Business History*.

Implementing Environmental Constitutionalism Jan 08 2021 Constitutions can play a central role in responding to environmental challenges, such as pollution, biodiversity loss, lack of drinking water, and climate change. The vast majority of people on earth live under constitutional systems that protect the environment or recognize environmental rights. Such environmental constitutionalism, however, falls short without effective implementation by

policymakers, advocates and jurists. *Implementing Environmental Constitutionalism: Current Global Challenges* explains and explores this 'implementation gap'. This collection is both broad and deep. While some of the essays analyze crosscutting themes, such as climate change and the need for rule of law that affect the implementation of environmental constitutionalism throughout the world, others delve deeply into geographically contextual experiences for lessons about how constitutional environmental law might be more effectively implemented. This volume informs global conversations about whether and how environmental constitutionalism can be made more effective to protect the natural environment.

The Assault on the Rand Nov 29 2022 When the rand collapsed from 7.60 to 13.84 to the US dollar in 2001, Kevin Wakeford blew the whistle, accusing three big corporates and one global bank of being party to manipulation in the currency markets. Wakeford predicted that the rand was on its way to 20, 30, 40 and possibly 50 to the dollar, which would have thrown the seven-year-old democracy into economic and political turmoil. As a result of his intervention, a Rand Commission was set up by President Mbeki to investigate his claims, and the rand's collapse was arrested and reversed. The Rand Commission was, however, shut down prematurely and Wakeford was fired as CEO of the South African Chamber of Business. While the Enron and WorldCom scandals in the United States triggered comprehensive corporate reform, it seemed that South African authorities were determined to cover up any wrongdoing. In *The Assault on the Rand*, Barry Sergeant tells the explosive story of the rand's collapse and the events that followed. He also explores more recent banking scandals around the world, giving a hard-hitting exposé of greed, collusion and manipulation in the markets.

Sustainable Development Goals and Integrated Reporting May 24 2022 Our planet faces massive economic, social, and environmental challenges. To deal with these challenges, the United Nations has promoted 17 Sustainable Development Goals (SDGs) to define global priorities and aspirations for 2030, and Governments worldwide have already agreed on these goals. In order to approach them practically, private and public organizations have to contribute to make SDGs happen by identifying and executing sustainable strategies as key drivers of their visions and business models. Building on the emerging concept of Integrated Thinking (IT), this book explores how modern organizations can leverage a long-term integrated strategy to reconcile financial stability with social and environmental sustainability and create enduring value for all stakeholders. By focusing on the value-creating role of business organizations in delivering on the promise of sustainable and inclusive development, the book enriches the debate on Integrated Thinking and Integrated Reporting (IR), with particular emphasis on the value creation process. This book offers an opportunity to discuss the way in which business organisations can rethink their management

processes, accounting tools and reporting solutions, as they strive for both competitiveness and growth while contributing to the achievement of the SDGs, and long-term value creation more broadly. Based on the analysis of different case studies, the book explores how organizations are approaching these challenges and how they are connecting SDGs, to business models and strategies. Analysing the impact of SDGs on materiality, connectivity, and stakeholder engagement, this book provides an insight into how Integrated Thinking, Management and Reporting is currently practiced and in which way these managerial innovations can contribute to SDGs.

Sabotage Dec 19 2021 On a stormy evening in November 2021, unknown saboteurs neatly cut eight steel supports and toppled a small pylon near Lethabo Power Station in the Free State. It was felled in such a way as to take out a back-up power line, leaving coal conveyors at the power station without electricity. 'This was clearly now an act of sabotage,' declared Eskom's chief executive officer André de Ruyter, 'and I think we can call it as such.' Who was behind this, and what is their ultimate goal? Since his appointment in January 2020, De Ruyter has faced intense opposition from within the power utility as he attempts to clean up corruption and return the electricity company to a semblance of its former glory. He is not alone. Chief operations officer Jan Oberholzer and other trusted allies in Eskom have also come under intense fire. From forensic investigations, botched probes and accusations of racism, De Ruyter and Oberholzer have spent significant amounts of time fending off allegation after allegation. Amid this onslaught, it has become clear that their enemies will take any measures necessary to have them removed from office. Based on exclusive interviews with De Ruyter, Oberholzer and other key figures, Sabotage is a story of conspiracy and subterfuge at South Africa's ailing power utility, giving new insights into a battle that threatens the country's economy.

Strangers in Their Own Land Apr 30 2020 The National Book Award Finalist and New York Times bestseller that became a guide and balm for a country struggling to understand the election of Donald Trump "A generous but disconcerting look at the Tea Party. . . . This is a smart, respectful and compelling book." —Jason DeParle, The New York Times Book Review When Donald Trump won the 2016 presidential election, a bewildered nation turned to Strangers in Their Own Land to understand what Trump voters were thinking when they cast their ballots. Arlie Hochschild, one of the most influential sociologists of her generation, had spent the preceding five years immersed in the community around Lake Charles, Louisiana, a Tea Party stronghold. As Jedediah Purdy put it in the New Republic, "Hochschild is fascinated by how people make sense of their lives. . . . [Her] attentive, detailed portraits . . . reveal a gulf between Hochschild's 'strangers in their own land' and a new elite." Already a favorite common read book in communities and on campuses across the country and called "humble and important" by David Brooks and "masterly" by Atul Gawande, Hochschild's book has been lauded by Noam Chomsky, New

Orleans mayor Mitch Landrieu, and countless others. The paperback edition features a new afterword by the author reflecting on the election of Donald Trump and the other events that have unfolded both in Louisiana and around the country since the hardcover edition was published, and also includes a readers' group guide at the back of the book.

Handbook of Green Chemicals Jun 24 2022 More than 7000 trade name products and more than 2500 generic chemicals that can be used in formulations to meet environmental concerns and government regulations. This reference is designed to serve as an essential tool in the strategic decision-making process of chemical selection when focusing on human and environmental safety factors. Industries Covered: Adhesives ? Refrigerants ? Water Treatment ? Plastics ? Rubber ? Surfactants ? Paints & Coatings ? Food ? PharmaceuticalsCosmetics ? Petroleum Processing ? Metal Treatment ? TextilesThe chemicals and materials included are used in every aspect of the chemical industry. The reference is organized so that the reader can access the information based on the trade name, chemical components, functions and application areas, 'green' attributes, manufacturer, CAS number, and EINECS/ELINCS number.It contains a unique cross-reference that groups the trade name chemicals by one or more of these green chemical attributes: Biodegradable ? Environmentally Safe ? Environmentally Friendly ? Halogen-Free ? HAP's-Free ? Low Global WarmingLow Ozone-Depleting ? Nonozone-Depleting ? Low Vapor Pressure ? Noncarcinogenic ? Non-CFC ? Non-HCFCNonhazardous ? Nontoxic ? Recyclable ? SARA-Nonreportable ? SNAP (Significant New Alternative Policy) CompliantVOC-Compliant ? Low-VOC ? VOC-Free

Energy law in South Africa Aug 03 2020 Derived from the renowned multi-volume International Encyclopaedia of Laws, this book provides a systematic approach to legislation and legal practice concerning energy resources and production in South Africa. The book describes the administrative organization, regulatory framework, and relevant case law pertaining to the development, application, and use of such forms of energy as electricity, gas, petroleum, and coal, with attention as needed to the pervasive legal effects of competition law, environmental law, and tax law. A general introduction covers the geography of energy resources, sources and basic principles of energy law, and the relevant governmental institutions. Then follows a detailed description of specific legislation and regulation affecting such factors as documentation, undertakings, facilities, storage, pricing, procurement and sales, transportation, transmission, distribution, and supply of each form of energy. Case law, intergovernmental cooperation agreements, and interactions with environmental, tax, and competition law are explained. Its succinct yet scholarly nature, as well as the practical quality of the information it provides, make this book a valuable resource

for energy sector policymakers and energy firm counsel handling cases affecting South Africa. It will also be welcomed by researchers and academics for its contribution to the study of a complex field that today stands at the foreground of comparative law.

Corporate Legal Compliance Handbook, 3rd Edition Dec 31 2022 *Corporate Legal Compliance Handbook, Third Edition*, provides the knowledge necessary to implement or enhance a compliance program in a specific company, or in a client's company. The book focuses not only on doing what is legal or what is right--the two are both important but not always the same--but also on how to make a compliance program actually work. The book is organized in a sequence that follows how to approach a compliance program. It gives the compliance officer, consultant, or attorney a good grounding in the basics of compliance law. This includes such things as the rules about corporate and individual liability, an understanding of the basics of the key laws that impact companies, and the workings of the U.S. Sentencing Guidelines. Successful programs also require an understanding of educational techniques, good communication skills, and the use of computer tools. The effective compliance program also takes into account how to deliver messages using a variety of media to reach employees in different locations, of different ages or education, who speak different languages. Note: Online subscriptions are for three-month periods.

Understanding Cross-cultural Management Apr 22 2022 Given the global nature of business today and the increasing diversity within the workforce of so many industries and organisations, a cross-cultural component in management education and training has become essential. This is the case for every type of business education, whether it be for aspiring graduates at the start of their careers or senior managers wishing to increase their effectiveness or employability in the international market. The 4th edition of *Understanding Cross-Cultural Management* has been adapted in line with the feedback from our many readers, and boasts new case study material based on recent research, as well as a stronger focus on Asian cultures, thereby providing more non-Western examples.

South African Law Reports Aug 27 2022

Beyond Tenderpreneurship Oct 05 2020 Black Economic Empowerment (BEE) policies have been a central pillar of attempts to overcome the economic legacy of apartheid. Yet, more than two decades into democracy, economic exclusion in South Africa still largely reflects the fault-lines of the apartheid era. Current discourse often conflates BEE with the so-called 'tenderpreneurship' referred to in the title, namely the reliance of some emergent black capitalists on state patronage. Authors go beyond this notion to understand BEE's role from a unique perspective. They trace the history of black entrepreneurship and how deliberate policies under colonialism and its apartheid variant sought to suppress this impulse. In the context of modern South Africa, authors interrogate the complex dynamics of class formation, economic empowerment and redress against the

backdrop of broader macroeconomic policies. They examine questions relating to whether B-BBEE policies are informed by strategies to change the structure of the economy. These issues are explored against the backdrop of the experiences of other developing countries and their journeys of industrialisation. The relevant black empowerment experiences of countries such as the United States are also discussed. The authors identify policy and programmatic interventions to forge the non-racial future that the constitution enjoins South Africans to build.

Energy for Development Sep 27 2022 This comprehensive text offers a rare and insightful investigation into the energy sector of the developing world.

'Energy for Development' provides comparative case studies of countries going through the reform process, evaluates reform experience, discusses the lessons that can be learned and identifies challenges faced by these countries at the national and global level. A topical and timely book which seeks to explore the anxieties and insecurities of the global energy sector since 2001.

Ethical Leadership May 12 2021 Ethical Leadership shines a light on the role of both culture and ethics in organizations by making the issues more transparent, accessible and above all, connected. Business leaders are now accountable for showing that they have the correct ethical policies and culture in place. Andrew Leigh focuses on the fact that ethical culture is manifest in the actual behaviour and attitudes of all staff, rather than in policy documents. His book is full of practical strategies, case studies and action points which will help leaders to improve and manage ethical culture and climate in their organizations.

The Role of Business in Global Governance Apr 03 2023 The Role of Business in Global Governance offers an empirically rich analysis of the new political role of corporations in the co-performance of governance functions beyond the state. Within comparative case studies, potential explanations of the political role of transnational corporations are systematically tested.

Carrion Ecology and Management Feb 06 2021 Carrion, or dead animal matter, is an inherent component of aquatic and terrestrial ecosystems worldwide, and is exploited by a wide diversity of organisms from different trophic levels, including microbes, arthropods and vertebrates. Further, carrion consumption by scavengers, i.e. scavenging, supports key ecosystem functions and services such as recycling nutrients and energy, disposing of carcasses and regulating disease spread. Yet, unlike dead plant matter, dead animal decomposition has received little attention in the fields of ecology, wildlife conservation and environmental management, and as a result the management of carrion for maintaining biodiversity and functional ecosystems has been limited. This book addresses the main ecological patterns and processes relating to the generation and consumption of carrion both in terrestrial and aquatic

ecosystems. It also discusses a number of conservation concerns and associated management issues, particularly regarding the increasing role of human-mediated carrion in ecosystems. Lastly, the book outlines future research lines in carrion ecology and management, and identifies the major challenges for scavengers and scavenging processes in the Anthropocene.
