Anyone planning to take college placement exams should take advantage of the review material, practice test questions, and test-taking strategies contained in this study guide.

How to Slay the ACT Jun 24 2022 Are you looking for help to increase your ACT score? Are you not sure how to start studying for the ACT test? Then this book is for you! You can use the book on its own, but to get the biggest benefit from the book, I HIGHLY recommend that you purchase *The Official ACT Prep Guide 2020-2021* for practice, and use *How to Slay the ACT* for guidance! - Written by a test prep expert that has helped hundreds of students personally over the past 15 years. - This book is like having a personal tutor help you through your test prep! - Study plans included so you can figure out the best approach to achieve your highest score. Plans are for 6 weeks, 4 weeks, and 7 days! - Review of content that will appear on the ACT - Easy-to-remember strategies for every section of the ACT "I've been working with college-bound teens for over 20 years, and I've always been at a loss to answer the question: What book should I use to prep for the ACT? If you've looked at most of the guides, they're thick and overwhelming and have the sense of being lectured at by a teacher who's telling you to put your hand down because they're not taking any questions. HOW TO SLAY THE ACT is the complete opposite of that. The author's years as a one-on-one tutor are apparent because it feels like you have someone sitting beside you, explaining strategies and test components in a way that has clearly been honed from having to continually clarify the message for a kid struggling with the concept." Crystal

Institutionalizing Literacy Oct 17 2021 Mary Trachsel discusses how college entrance examinations have served as an instrument for the academic institutionalization of literacy, arguing that entrance examinations chart a change of view from literacy as achievement to literacy as aptitude. Trachsel begins her study by outlining current theory on literacy. She identifies two separate approaches to the task of defining literacy: a "formal" approach that explains literacy as an exclusively academic activity and a "functional" approach that lies in basic opposition to mainstream academic values and practices. Trachsel then examines testing as an academic practice that enforces a primarily formal definition of literacy. In presenting a thorough documentation of historical developments in entrance examinations in English, she notes that while these examinations originated in academic departments of English, they have long since been taken over by bureaucratic agencies, the values and goals of which are at odds with the concept of literacy upheld by the professional community of English studies scholars and teachers. In her final chapter, Trachsel presents a critique of present-day English studies. She illustrates her critique with a historical consideration of entrance examinations in English, providing samples of actual test questions that indicate the larger ideological struggles forming the history of English studies. In voicing her concern with the ways in which the standard entrance examination movement traces the development of a professional identity for English studies specialists, Trachsel encourages all professionals in the field to devote their attention to articulating their own definition of literacy and devising a means for assessing literacy that is in accord with that definition.

Meritocracy and Its Discontents Mar 02 2023 Meritocracy and Its Discontents investigates the wider social, political, religious, and economic dimensions of the Gaokao, China's national college entrance exam, as well as the complications that arise from its existence. Each year, some nine million high school seniors in China take the Gaokao, which determines college admission and provides a direct but difficult route to an urban lifestyle for China's hundreds of millions of rural residents. But with college graduates struggling to find good jobs, some are questioning the exam's legitimacy—and, by extension, the fairness of Chinese society. Chronicling the experiences of underprivileged youth, Zachary M. Howlett's research illuminates how people remain captivated by the exam because they regard it as fateful—an event both consequential and undetermined. He finds that the exam enables people both to rebel against the social hierarchy and to achieve recognition within it. In Meritocracy and Its Discontents, Howlett contends that the Gaokao serves as a pivotal rite of passage in which people strive to personify cultural virtues such as diligence, composure, filial devotion, and divine favor.

McCaulay's College Entrance Exam Math for Mathematically Challenged Students Nov 29 2022 McCaulay's College Entrance Exam Math for Mathematically Challenged Students contains relatively easy sample questions of the type that are most likely to appear in the mathematics sections of college entrance exams designed to measure the mathematical skills students have typically acquired in courses taken by the end of 12th grade. These practice questions will help improve scores on the Preliminary SAT/National Merit Scholarship Qualifying Test (PSAT/NMSQT*), the SAT*, and the ACT* Mathematics Test, with a goal of helping students achieve at least the minimum scores required for college admission. The categories of questions include Number and Operations; Algebra and Functions; Plane Euclidean Geometry and Measurement; Coordinate Geometry; Three-Dimensional Geometry; Data Analysis; Statistics; and Probability. These are only the most basic level questions. *PSAT/NMSQT is a trademark registered by the College Board and the National Merit Scholarship Corporation, SAT is a trademark registered by the College Board, and ACT is a trademark registered by ACT, Inc., which were not involved in the production of, and do not endorse, this product.

Survey of College Entrance Exam Preparation Methods Oct 05 2020 This study surveyed college freshman to determine which types of preparation if any they had before taking either the SAT and/or ACT to decide if a certain type of preparation increased their scores. Students indicated whether they used online resources, self-help resources, school workshops and/or private tutoring before taking either test. The ACT scores were converted to SAT scores so that the data would be uniform. The mean SAT score was computed for those who used preparation and those who did not and comparisons were made. Each individual type of preparation was compared to no preparation. Finally, a correlation was computed between SAT scores and high school grade point averages. The research did not show that students who used preparation performed better than those who did not.

National College Entrance Exam in China Apr 03 2023 This book focuses on the National College Entrance Exam (NCEE), an important measurement of education quality in China, from both education economics and education policy perspectives. It provides a better understanding and stimulates more sophisticated evaluations of NCEE-related policies in China from the perspectives of education equity, the effectiveness of education input, and education quality. This book reports inspiring findings based on high-quality individual level data, innovative measurement design, and various appropriate identification strategies. The most import conclusion is that both education equity and quality can be achieved using well-designed policies based on solid empirical evidence. This is likely the first book published in English to discuss the NCEE so extensively from multiple perspectives using concrete evidence.

ACT Assessment Examination for College Entrance (ACT) Dec 27 2019

Administrative Leadership Effect on College Entrance Examination Participation and Performance Jun 12 2021 College entrance exam scores, namely the SAT and ACT, are an important criteria for students applying for admission to their college of choice. Clinedinst, Hurley, and Hawkins (2012) stated that almost ninety percent of colleges and universities ranked college entrance exam scores as considerably or moderately important in the admission process, and more than 1.6 million high school graduates participated in taking the SAT and/or ACT in 2012. With college entrance exams having such a profound impact on college admission and with the existence of large achievement gaps, it becomes a responsibility of school leaders to work towards improvement of participation and performance on SAT and ACT. This study investigated leadership practices that have positive impact on college entrance exam participation and performance. The study analyzed SAT and ACT data in identified high performing Texas high school campuses, campus groups as identified by Texas AEIS reports, and state averages. Selected Texas public school districts and high schools were contacted to participate in interviews that sought to identify leadership actions associated with their identified strengths in the area of SAT and ACT participation and performance. This study used the archival data from the Texas AEIS report and College Entrance exam reports together with collected interviews of school leaders. The study identified practices that will inform and influence school leaders to improve student participation and performance on SAT and ACT.

McCaulay's Geometry and Trigonometry for College Entrance Exams Jul 02 2020 McCaulay's Geometry and Trigonometry for College Entrance Exams contains questions on geometry and trigonometry that are the type of questions likely to appear in the mathematics sections of college entrance exams designed to measure the mathematical skills students have typically acquired in courses taken by the end of 12th grade. These practice questions will help improve scores on the Preliminary SAT/National Merit Scholarship Qualifying Test (PSAT/NMSQT*), the SAT*, the ACT* Mathematics Test, the SAT* Subject Test in Mathematics Level 1, and the SAT* Subject Test in Mathematics Level 2. *PSAT/NMSQT is a trademark registered by the College Board and the National Merit Scholarship Corporation, SAT is a trademark registered by the College Board, and ACT is a trademark registered by ACT, Inc., which were not involved in the production of, and do not endorse, this product.
