Bigger Deal Sep 02 2022 Fifteen years on from Anthony Holden's undisputed classic BIG DEAL, the poker world has changed beyond recognition. When Holden played in the 1988 World Series of Poker there were 167 entrants competing for a prize of \$270,000. At the 2006 WSOP, where this book climaxes, there were 8773 players and a first prize of some \$12 million - the richest in any sport. What happened in the years between BIG DEAL and BIGGER DEAL is simple: thanks to the Internet and television there has been a worldwide explosion in the popularity of poker. The game even has a new respectable image, much to the disgust of die-hard players. Gone are the seedy, smoky rooms of the Horseshoe, and celebrities now crowd the tables at huge Las Vegas tournaments: Martin Sheen, Matt Damon and Ben Affleck are all dedicated players. In the UK, LATE NIGHT POKER draws some 2 million viewers (Holden was banned from the last series for doing too well). In BIGGER DEAL, Holden is your guide - and the only guide you'll need - to the world of new poker as he prepares to enter the WSOP once again. Will he win the title? Place your bets ...

Employer Bargaining Objectives Nov 23 2021

Modeling and Valuation of Energy Structures Aug 21 2021 Commodity markets present several challenges for quantitative modeling. These include high volatilities, small sample data sets, and physical, operational complexity. In addition, the set of traded products in commodity markets is more limited than in financial or equity markets, making value extraction through trading more difficult. These facts make it very easy for modeling efforts to run into serious problems, as many models are very sensitive to noise and hence can easily fail in practice. Modeling and Valuation of Energy Structures is a comprehensive guide to quantitative and statistical approaches that have been successfully employed in support of trading operations, reflecting the author's 17 years of experience as a front-office 'quant'. The major theme of the book is that simpler is usually better, a message that is drawn out through the reality of incomplete markets, small samples, and informational constraints. The necessary mathematical tools for understanding these issues are thoroughly developed, with many techniques (analytical, econometric, and numerical) collected in a single volume for the first time. A particular emphasis is placed on the central role that the underlying market resolution plays in valuation. Examples are provided to illustrate that robust, approximate valuations are to be preferred to overly ambitious attempts at detailed qualitative modeling.

A New Deal for Cancer Nov 04 2022 An unprecedented constellation of experts—leading cancer doctors, policymakers, cutting-edge researchers, national advocates, and more—explore the legacy and the shortcomings from the fifty-year war on cancer and look ahead to the future. The longest war in the modern era, longer than the Cold War, has been the war on cancer. Cancer is a complex, evasive enemy, and there was no quick victory in the fight against it. But the battle has been a monumental test of medical and scientific research and fundraising acumen, as well as a moral and ethical challenge to the entire system of medicine. In A New Deal for Cancer, some of today's leading thinkers, activists, and medical visionaries describe the many successes in the long war and the ways in which our deeper failings as a society have held us back from a more complete success. Together they present an unrivaled and nearly complete map of the battlefield across dimensions of science, government, equity, business, the patient provider experience, and more, documenting our emerging understanding of cancer's many unique dimensions and offering bold new plans to enable the American health care system to deliver progress and hope to all patients.

Trump: The Art of the Deal Feb 07 2023 President Donald J. Trump lays out his professional and personal worldview in this classic work—a firsthand account of the rise of America's foremost deal-maker. "I like thinking big. I always have. To me it's very simple: If you're going to be thinking anyway, you might as well think big."—Donald J. Trump Here is Trump in action—how he runs his organization and how he runs his life—as he meets the people he needs to meet, chats with family and friends, clashes with enemies, and challenges conventional thinking. But even a maverick plays by rules, and Trump has formulated time-tested guidelines for success. He isolates the common elements in his greatest accomplishments; he shatters myths; he names names, spells out the zeros, and fully reveals the deal-maker's art. And throughout, Trump talks—really talks—about how he does it. Trump: The Art of the Deal

is an unguarded look at the mind of a brilliant entrepreneur—the ultimate read for anyone interested in the man behind the spotlight. Praise for *Trump: The Art of the Deal* “Trump makes one believe for a moment in the American dream again.”—The New York Times “Donald Trump is a deal maker. He is a deal maker the way lions are carnivores and water is wet.”—Chicago Tribune “Fascinating . . . wholly absorbing . . . conveys Trump’s larger-than-life demeanor so vibrantly that the reader’s attention is instantly and fully claimed.”—Boston Herald “A chatty, generous, chutzpa-filled autobiography.”—New York Post

Toward a New Climate Agreement Jun 06 2020 Climate change is one of the most pressing problems facing the global community. Although most states agree that climate change is occurring and is at least partly the result of humans’ reliance on fossil fuels, managing a changing global climate is a formidable challenge. Underlying this challenge is the fact that states are sovereign, governed by their own laws and regulations. Sovereignty requires that states address global problems such as climate change on a voluntary basis, by negotiating international agreements. Despite a consensus on the need for global action, many questions remain concerning how a meaningful international climate agreement can be realized. This book brings together leading experts to speak to such questions and to offer promising ideas for the path toward a new climate agreement. Organized in three main parts, it examines the potential for meaningful climate cooperation. Part 1 explores sources of conflict that lead to barriers to an effective climate agreement. Part 2 investigates how different processes influence states’ prospects of resolving their differences and of reaching a climate agreement that is more effective than the current Kyoto Protocol. Finally, part 3 focuses on governance issues, including lessons learned from existing institutional structures. The book is unique in that it brings together the voices of experts from many disciplines, such as economics, political science, international law, and natural science. The authors are academics, practitioners, consultants and advisors. Contributions draw on a variety of methods, and include both theoretical and empirical studies. The book should be of interest to scholars and graduate students in the fields of economics, political science, environmental law, natural resources, earth sciences, sustainability, and many others. It is directly relevant for policy makers, stakeholders and climate change negotiators, offering insights into the role of uncertainty, fairness, policy linkage, burden sharing and alternative institutional designs.

Transforming HR Oct 11 2020 Deliver greater value to your organisation through HR transformation. *Transforming HR*, Second edition offers robust, practical advice on changing the way human resource management is undertaken, walking you through the transformational process from initial planning to the evaluation of outcomes. Since the first edition of the book many organisations have restructured their HR functions and invested in better HR information systems but with new issues emerging all the time, the journey towards transformation must continue. To support this journey the authors draw on their own experience and insights in this new edition, which features: *Practical tools and approaches to guide planning, implementation and evaluation of transformation strategies aimed at increasing the value of HR’s contribution in organisations *New chapters on HR’s value proposition, Web 2.0 and benefits realisation to demonstrate their critical role in transformation *Cutting edge research on topics such as the use of social media technology by HR, with views and experience from senior practitioners across a broad range of organisations *Fresh thinking on the people agenda to be addressed by progressive HR functions Intended as an inspiring, hands-on guide to planning, implementing and evaluating transformation strategies, *Transforming HR*, second edition is an essential companion as you work to increase the value of HR in your organisation.

The Cultural Encyclopedia of Baseball, 2d ed. Oct 23 2021 More than any other sport, baseball has developed its own niche in America’s culture and psyche. Some researchers spend years on detailed statistical analyses of minute parts of the game, while others wax poetic about its players and plays. Many trace the beginnings of the civil rights movement in part to the Major Leagues’ decision to integrate, and the words and phrases of the game (for example, pinch-hitter and out in left field) have become common in our everyday language. From AARON, HENRY onward, this book covers all of what might be called the cultural aspects of baseball (as opposed to the number-rich statistical information so widely available elsewhere). Biographical sketches of all Hall of Fame players, owners, executives and umpires, as well as many of the sportswriters and broadcasters who have won the Spink and Frick awards, join entries for teams, owners, commissioners and league presidents. Advertising, agents, drafts, illegal substances, minor leagues, oldest players, perfect games, retired uniform numbers, superstitions, tripleheaders, and youngest players are among the thousands of entries herein. Most entries open with a topical quote and conclude with a brief bibliography of sources for further research. The whole work is exhaustively indexed and includes 119 photographs.

The Agent Apr 04 2020 A New York Times bestseller! The real-life “Jerry Maguire,” superagent Leigh Steinberg shares his personal stories on the rise, fall, and redemption of his game-changing career in the high-stakes world of professional sports Leigh Steinberg is renowned as one of the greatest sports agents in history, representing such All-Pro clients as Troy Aikman, Bruce Smith, and Ben Roethlisberger. Over one particular seven-year stretch, Steinberg represented the top NFL Draft pick an unheard of six times. Director Cameron Crowe credits Steinberg as a primary inspiration for the titular character in *Jerry Maguire*, even hiring Steinberg as a consultant on the film. Lightyears ahead of his contemporaries, he expanded his players’ reach into entertainment. Already the bestselling author of a business book on negotiation, the original superagent is now taking readers behind the closed doors of professional sports, recounting priceless stories, like how he negotiated a \$26.5 million package for Steve Young—the biggest ever at the time—and how he passed on the chance to represent Peyton Manning. Beginning with his early days as a student leader at Berkeley, Steinberg details his illustrious rise into pro sports fame, his decades of industry dominance, and how he overcame a series of high-profile struggles to regain his sobriety and launch his comeback. This riveting story takes readers inside the inner circle of top-notch agents and players through the visionary career of Leigh Steinberg, the pre-eminent superagent of our time.

Let’s Close a Deal Oct 03 2022 Close deals with major corporations, organizations or individuals who can propel your business to the next level When you think about it, our entire lives revolve around selling. Whether we sell as part of our business, serve on a committee of a non-profit organization, or negotiate for a new job/car/house, we are pitching, hearing, and closing deals every day. *Let’s Close a Deal* articulates the intuitive process that identifies how and why a deal will appeal, and then demonstrates in step-by-step detail how to present your deal in a compelling way. The sales process is not about coercion; it’s about compassion. The closing part of a negotiation should honor everyone involved instead of taking advantage of them. We make our decisions based on the manner in which information is presented to us, and what we believe will be the best deal. *Let’s Close a Deal* explains how to present information so persuasively that it increases the likelihood of getting a yes. Demonstrates how finding the human perspective is key to closing any deal Articulates the sale from conception, preparation, presentation to close Author Christine Clifford is a sought-after professional

speaker and author of eight books including *You, Inc. The Art of Selling Yourself*, coauthored with Harry Beckwith. Author has direct experience closing major deals, having taken her company from a million dollar per year loss to over \$54 million in sales and having signed the largest contract in the history of her industry with Procter & Gamble, doubling the size of her company overnight. Increase your business's chance for success by improving your ability to secure profitable partnerships. *Let's Close a Deal* shows you how. [Get the Deals Now](#) Mar 08 2023 GET THE DEALS NOW Get Houses With Lots Of Equity In 7 Days Or Less Discover How To Acquire Houses Quickly and Make More Money In One Month Than Most People Make In A Year Do you have all the wholesale deals that you want or need? The Real Deal Jan 14 2021 The Sandy Weill story is truly one for the ages. Starting with \$30,000 of borrowed cash in 1960 and relying upon uncanny entrepreneurial instincts in the corporate world, Sandy Weill made himself into a billionaire. With an amazing ability to put together huge deals, this businessman from modest roots ultimately rose to become president of American Express, only to see his empire crash and burn. Undaunted, Weill then started over with a second-tier consumer loan company called Commercial Credit, which eventually led to his top position at CitiGroup before he retired. At CitiGroup, Weill delivered an astounding 2600% return to investors - better than Jack Welch or Warren Buffett during that same period. But success is never an easy path and, in *THE REAL DEAL*, Sandy Weill presents all the high and low points of his career along the way - warts and all. Weill's ascent to power has been documented by the business media over the years, but never before has Sandy gone on the record to tell readers his unvarnished side of the story.

Big Deal May 10 2023 In 1988, best-selling biographer Anthony Holden spent one year living the life of a professional poker player. His mesmerizing account of that year went on to become a classic of the genre, an inspiration to innumerable poker players and poker memoirists who followed. *Big Deal* is his story of days and nights in Las Vegas, Malta, and Morocco, mingling with the greats, sharpening his game, perfecting his repartee, and learning a great deal about himself in the process. Poker, Holden would insist, is a paradigm of life at its most intense, a gladiatorial contest that brings out the best as well as the worst in people. The heroes and eccentrics of the poker world stalk the pages of this remarkable book, along with all the hair-raising, nail-biting excitement of the game itself.

Report for the Year ... Presented to the General Meeting of Shareholders Jan 02 2020

Global Corporate Governance Feb 01 2020 Effective corporate governance, or the set of controls and incentives that drive top management, originates both outside and inside the firm and assures investors who hope to commit their capital. Essential when buying stocks in one's own country, effective corporate governance is even more important abroad, where information can be less reliable and investor influence (or protection) more limited. In this collection of articles from the Journal of Applied Corporate Finance, more than thirty leading scholars and practitioners discuss the possibilities and limitations of global corporate finance and governance systems, whether in Europe and North America or in the emerging markets of Israel, India, Korea, and South Africa. Essays discuss the political roots of American corporate finance; the structural and financial variations between international corporations; control premiums and the effectiveness of corporate governance systems; debt, folklore, and cross-country differences in financial structures; the driving forces behind the East Asian Financial Crisis of 1997; corporate ownership and control in India, Germany, France, and the United Kingdom; financial and economic lessons of Italy's privatization program; changes in Korean corporate governance; sovereign wealth funds; and the new organization of Canadian business trusts. A special roundtable discussion addresses shareholder activism in the U.K.

How to be a Better Deal-Closer May 30 2022 This book provides valuable and accessible insight into the key elements required to ensure successful deal-closing. Deals are pivotal to business growth and are being struck all the time. You won't succeed in business without striking deals. Deal-closing is not limited to CEOs. To varying degrees and at different times, we all strike deals in business. Every person or organization engages in deal-closing at some point. This book provides valuable and accessible insight into the key elements required to ensure successful deal-closing. It is written in an easy to read, no-nonsense style, and is easily accessible to those who are not proficient with deal closing. The chapters include real-life stories and insights from a wide spectrum of the author's connections and experiences.

The Investment Dealers' Digest Feb 12 2021

Deal with the Devil Jul 08 2020 In Deal with the Devil, five-time Emmy Award-winning investigative reporter Peter Lance draws on three decades of once-secret FBI files to tell the definitive story of Greg Scarpa Sr., a Mafia capo who "stopped counting" after fifty murders, while secretly betraying the Colombo crime family as a Top Echelon FBI informant. Lance traces Scarpa's shadowy relationship with the FBI all the way back to 1960, when his debriefings went straight to J. Edgar Hoover. In forty-two years of murder and racketeering, Scarpa served only thirty days in jail thanks to his secret relationship with the Feds. This is the untold story that will rewrite Mafia history as we know it—a page-turning work of journalism that reads like a Scorsese film. Deal with the Devil includes more than 130 illustrations, crime scene photos, and never-before-seen FBI documents.
