More from DK Books: Expand your knowledge and explore more books from this series that cover your child's favorite subjects. Go on an intergalactic adventure in *Space: A Visual Encyclopedia*, discover our blue planet like never before in *Ocean: A Visual Encyclopedia*, and take a tour of the human body in *Human Body: A Visual Encyclopedia*. A highly illustrated one-volume encyclopedia containing 450 main entries ranging from Aboriginal Australians to Zoos. An illustrated encyclopedia for primary and intermediate level readers which contains 5000 entries with a wide topic range. This limited, luxury, collector's edition of Britannica's brand new encyclopedia for kids features a slipcase, gold page-edges, two ribbon markers, and a numbered (1 of 500) book plate signed by Christopher Lloyd and J.E. Luebering. Featuring up-to-the-minute information from Britannica, one of the world's most trusted sources of knowledge, this new encyclopedia brings home the joy of learning, and features over a thousand illustrations, photographs and maps. Page by page, you'll discover the story of the Universe, Earth, Matter, Life, Humans, Ancient & Medieval Times, Modern Times, and the dynamic worlds of Today & Tomorrow. In keeping with Britannica's reputation for expert involvement, each spread includes a credit to the expert consultant involved with its creation, and special features highlight some of the most intriguing unsolved puzzles in science, archaeology, history, and engineering. Perhaps today's young readers will discover the answers to these mysteries! This gorgeous volume is a modern classic, and will inspire curiosity and delight in every reader. Discover more than 60 of the world's most dangerous animals and the facts behind their bad reputations, including the highly venomous Brazilian wandering spider and the truly terrifying Tasmanian Devil. The *Illustrated Encyclopaedia of Dangerous Animals* is a fascinating compendium of the strange and the dangerous of the animal kingdom. Did you know that African buffaloes have good memories and have been known to attack people who have hurt them in the past? And that piranha fish can smell a single drop of blood in 200 litres of water? Have you heard of the carnivorous caterpillars of Hawaii? But don't panic - these animals are not actually out to get us! They have simply evolved some amazing features to protect themselves from predators, including us humans. With detailed illustrations to pore over, curious children (and the adults in their lives) will love discovering the facts behind the bad reputations of these truly fascinating creatures. From the talented author and illustrator of *The Illustrated Encyclopaedia of 'Ugly' Animals*, Sami Bayly. Brings the world into view for children. With its 450 featured subjects and over 1,500 sub-entries, this encyclopedia entices children away from the TV to read, look and discover for themselves. By placing the Eyewitness format within the A-Z organization of the contents, this book contains the most up-to-date cartographic and political information available. Presents facts on more than 1300 subjects from Aardvark to Zoo. From your head to your toes, this encyclopedia for children takes you on a tour of the human body and explains how each part works. On every page, discover amazing facts about the human body. Did you know that you are made up of 100 trillion cells? Learn about blood vessels (capillaries, veins, and arteries) which, if they were laid out end to end, would wrap around the Earth twice! Find out what makes a balanced diet - after all, you will eat about 20 tonnes of food in your entire life! See what part of the brain makes you appreciate music (it's the right side). There are also fun quizzes, so you can assess your own personality and test your logical and reasoning skills. An international best-seller since 2012, *Human Body: A Children's Encyclopedia* has now been fully updated in line with the latest research. Combining clear descriptions of human biology with awesome photographs, graphics, and CGI artworks, make your way from the skin, muscles, organs, bones, right down to your cells and DNA. From homework projects to just reading for curiosity, this comprehensive encyclopedia is filled with everything that you need to know about what makes your body tick. Over three million copies and 25 years later, *Children's Illustrated Encyclopedia* is revised and updated with the latest facts, figures, and technologies. Covering more than 380 topics from dinosaurs to digital technology, this highly visual guide engages young readers with photographic spreads and illustrations annotated with amazing trivia. Featuring full-color photographs, maps, cutaway diagrams, charts, and more, *Children's Illustrated Encyclopedia* is written in a clear and child-friendly style with updates that include recent space missions, scientific breakthroughs, and the latest significant events. *Children's Illustrated Encyclopedia* is perfect for reports, homework, and independent research. A great addition to any bookshelf, *Children's Illustrated Encyclopedia* is the essential book for curious young readers who want to know about everything. The ultimate book of knowledge for kids aged 7 to 9, this thorough children's encyclopedia contains all the homework answers your kids will need, explained clearly and checked by experts. An engaging, traditional-style general reference book for kids covering all the key subjects including Arts, People, History, Earth, Nature, Science, Technology, Space, and the Human Body in alphabetical order. A gorgeous nonfiction book for kids from bestselling artist and author Lisa Congdon! *The Illustrated Encyclopedia of the Elements* leads young readers in an exploration of all 118 known elements. From their discoveries to their uses to their special properties, this vibrant book explores all things elements. • A visually stunning tour of the periodic table • Complete with profiles of notable scientists, amazing infographics, and more • Features an illustrated history of the periodic table's origins This artful survey of the elements combines science, history, trivia, humor, and endless fascination for science enthusiasts of every age. Middle grade readers will delight in this interesting take on the periodic table of elements. • Great for science lovers and Lisa Congdon fans alike • Resonates year-round as a go-to gift for birthdays and holidays for the science-loving kid • Perfect for children ages 10 and up • Equal parts educational and entertaining, this makes a great pick for parents and grandparents, as well as librarians, science teachers, and STEM educators. • You'll love this book if you love books like *The Elements Book: A Visual Encyclopedia of the Periodic Table* by DK, *The Periodic Table* by Sean Callery and Miranda Smith, and *Elements: A Visual Exploration of Every Known Atom in the Universe* by Theodore Gray. Creating children's books - Telling the story - Non-fiction - Media and techniques. The perfect book for young readers looking to explore some of life's biggest questions. Thousands of years ago, ancient philosophers asked some important questions: "What is real?", "What is the point of my existence?", "Why is there evil in the world?", and "What can I know?" These questions have gone on to spark passionate debates about our existence and how we understand the world around us. In this engaging and accessible introduction to philosophy, readers aged 11+ will be introduced to a variety of philosophical ideas through the teachings of Plato, Confucius, Simone de Beauvoir, and many more. Vibrant, reader-friendly illustrations bring the history of ideas and thinking to life, and provide topics for reflection and debate. With biographies of the most influential philosophers from around the world, young readers will explore the questions that have been fundamental to the development of scientific study, logical thinking, religious beliefs, freedom in society, and much more. Thought experiments peppered throughout will help to connect readers with the theories presented so they can apply them to their own

lives.
