Tomorrow's God Jun 24 2020 The post-Christian era offers a mixed blessing, as people find greater personal freedom while facing a future without the certainty of traditional

beliefs and practices. In *Tomorrow's God*, renowned writer and commentator Lloyd Geering argues that the world we live in is largely a product of our own making. Thus 'God', a central symbol of meaning, is entirely a human creation. Geering urges us to consciously create new meaning for our lives in a work that is a distillation of a lifetime's reading and reflection on religious and social questions.

Tomorrow's God Nov 22 2022 The author creates a question-and-answer dialogue between himself and God in which he describes a new form of spirituality that will enhance each individual's life.

Answer" gives a special look and insight into the struggles and the triumphs that were experienced due to involvement in the development of a dream by one and how it can be used to positively impact so many others. It is my hope that this book offers encouragement to those who are seeking to become "mentors". It is also hoped that this book is beneficial to those who are willing to dream simply because they have faith which says that dreams do come true. The intent of this work is to offer hope for change in this country that is long overdue. The change that I speak of asserts we must be willing to help others without having any motivations or expectations of rewards or immediate benefits for doing so. More-over, we must be willing to do more simply because it is the morally and ethically correct thing to do. Hopefully, the outcomes will indicate success in the future.

Part of the Problem, Part of the Solution: Religion Today and Tomorrow Mar 26 2023 Part of the Problem, Part of the Solution unleashes religion's true potential to do good by bridging the modern divide between religion and an ever-pervasive secular society, a notion often loathed by individuals on both sides of the religious aisle. As noted scholars such as Huston Smith, Karen Armstrong, Rosemary Radford Reuther, Harvey Cox, and Seyyed Hossein Nasr explain throughout the conversations related in this text, people of varied and conflicting faiths can come together

engage in civil, useful dialogue, and members of quite various religious traditions can work together for the benefit of humankind and can help defuse the world's current epidemic of violence. By showing how religion is an instrument in human affairs that can be tuned for both good and evil, this book lays the groundwork for an important cooperative effort to blossom. Furthermore, today's trend of associating all religion with suspicion has spiraled into a dangerous situation-that in discarding all religion because some of it causes harm, one risks throwing away the baby with the bathwater. Books such as *When Religion Becomes Evil* by Charles Kimball, *The God Delusion* by Richard Dawkins, *The End of Faith* by Sam Harris, *Breaking the Spell: Religion as a Natural Phenomenon* by Daniel Dennett, and *God is Not Great: How Religion Poisons Everything* by Christopher Hitchens have created quite a sensation, leaving the impression that religion, at its root, brings more heartache than handshakes. This development has dismayed many scholars, students, and practitioners of religion, of all faiths, who believe that only half the story of the negative half-is being told. Although demonstrating that certain religious beliefs have surely contributed to the violence that has occurred in this century, this book also explores how other religious teachings can help solve the epidemic of violence.
