[www.NursingCertificationSuccess.com](http://www.NursingCertificationSuccess.com) In this enhanced edition, Larry Arnhart continues to ask thought-provoking questions that illuminate the philosophies of some of the most prominent political thinkers throughout history. This clear, well-written guide is an ideal supplement to the original texts he recommends at the beginning of each chapter. In addition to his analysis of Plato, Aristotle, Augustine, Aquinas, Machiavelli, Descartes, Rousseau, Hegel, Marx, Nietzsche, and Rawls, the author's well-organized and insightful approach provides an even more comprehensive overview than the earlier editions: •

Supplementing the discussion of Leviathan, the chapter on Thomas Hobbes covers Behemoth. • The chapter on John Locke includes his Letter Concerning Toleration as well as the original discussion of Second Treatise of Government. • A chapter on Adam Smith has been added, which discusses Theory of Moral Sentiments and Wealth of Nations. • Leo Strauss is featured, with an examination of Persecution and the Art of Writing and Natural Right and History. • A final chapter analyzes Steven Pinker's The Better Angels of Our Nature. This inexpensive and brief text examines the main problems in contemporary philosophy and uses more than 100 "Food for Thought" exercises to promote critical thinking and help students become active learners of philosophy. The book is intended for use by professors teaching a problems-oriented course, but is structured to appeal to any reader willing to explore subjects such as free will, personal identity, existence of God, and more. Ultimate Questions explores how the timeless problems of Western philosophy are located inside our ordinary ways of thinking and being. It encourages readers to think about philosophy first-hand by using vivid and engaging examples. It also introduces readers to prominent up-to-date theories being applied to the same problems encountered by contemporary analytic philosophers. After reading this text, students will gain a better sense of how mysterious their own natures really are. NEW!
