Brief History of Indonesia Mar 28 2022 Sultans, Spices, and Tsunamis: The Incredible Story of the World's Largest Archipelago Indonesia is by far the largest nation in Southeast Asia and has the fourth largest population in the world after the United States.

Indonesian history and culture are especially relevant today as the Island nation is an emerging power in the region with a dynamic new leader. It is a land of incredible diversity and unending paradoxes that has a long and rich history stretching back a thousand years and more. Indonesia is the fabled "Spice Islands" of every school child's dreams—one of the most colorful and fascinating countries in history. These are the islands that Europeans set out on countless voyages of discovery to find and later fought bitterly over in the 15th, 16th and 17th centuries. This was the land that Christopher Columbus sought, and Magellan actually reached and explored. One tiny Indonesian island was even exchanged for the island of Manhattan in 1667! This fascinating history book tells the story of Indonesia as a narrative of kings, traders, missionaries, soldiers and revolutionaries, featuring stormy sea crossings, fiery volcanoes, and the occasional tiger. It recounts the

colorful visits of foreign travelers who have passed through these shores for many centuries—from Chinese Buddhist pilgrims and Dutch adventurers to English sea captains and American movie stars. For readers who want an entertaining introduction to Asia's most fascinating country, this is delightful reading.

My Brother, My Enemy Oct 03 2022 Philip Smucker makes an impassioned argument for understanding and reconciliation. Traversing a broad swath of the world's great Islamic societies, from northern Africa to Indonesia, he mingles a multitude of personal experiences with insights and analysis. The ultimate goal is peaceful resolution of the great "war on terror" that pits U.S.-led forces against a wide range of enemies. He avoids demonizing either or any side in a search for a better way of both waging war and making peace. As the title suggests, our enemies also are our brothers, and the war will end only when we recognize our common bond as people with similar yearnings, hopes, and fears.... The author himself sides only with a desire to resolve conflict. He suggests how in a final section devoted to sensitive and colorful first-person reporting from the battlegrounds of Afghanistan. Moving from there to the plain at West Point, he offers criticism and advice that those closest to the war zone may want to consider seriously.-Donald Kirk, Asia expert, correspondent,

Christian Science Monitor, author of *Korea Betrayed: Kim Dae Jung and the Struggle for Sunshine*. In this kaleidoscopic tour behind the frontlines of the war of ideas, veteran investigative journalist Philip Smucker—the author of the acclaimed *Al Qaeda's Great Escape*—assesses US efforts to persuade Muslims that Americans respect their rights and interests, while we fight wars and promote our interests. He draws on extensive travels in the Muslim world through interviews with a cross-section of the population including students, intellectuals, insurgents and politicians. For an American perspective, the author examines the threat of terrorism and the challenges of winning the peace through candid interviews with US military officers, diplomats, and regional experts. Smucker describes turmoil within the Islamic realm and our efforts to project soft power into a world that remains misunderstood. He assesses both our failures and successes in Israel and Palestine, Egypt, Indonesia, Afghanistan, Pakistan, and Saharan Africa. In contrast to Western fearmongers who use hyperbolic rhetoric about a clash of civilizations and our war with Islamic fascism, Smucker asserts that such language targeting a would-be enemy has only aided and abetted al Qaeda's recruiting drive and hardened attitudes against America among average Muslims. Several themes resonate through Smucker's interviews. One is that the Muslim world is looking for consistent

engagement from the United States, particularly in regard to Israeli-Palestinian peace. After decades of paying lip service to the ideal of peace in the Middle East, Smucker shows why it is crucial for the Obama Administration to push forcefully for a two-state solution. Another is that the US must discontinue its policy of backing authoritarian regimes that oppress their people. In the eyes of everyday Muslims, such tactics make a mockery of our claim to be the champion of individual liberty. Muslims, many of whom already support democratic change, will only be convinced of America's good will, says Smucker, if our actions speak louder than our words. Finally, Smucker makes the case that as long as Americans and Muslims view one another with blanket suspicions and as potential enemies, neither side can hope to persuade his brother to see the world in another light. Though there are no silver bullets, pacification, development, and democratic progress should be approached through shifts in American foreign policy, he argues. This revealing, vividly told narrative by a daring and experienced journalist with firsthand knowledge of the events and people in conflict areas offers unforgettable insights into the Muslim world's hopes and fears as well as our own crucial diplomatic overtures and military campaigns across the Islamic world. Philip Smucker (Alexandria, VA) is the author of the highly acclaimed *Al Qaeda's Great Escape*, which

The Rise of Theodore Roosevelt Aug 21 2021 WINNER
OF THE PULITZER PRIZE AND THE NATIONAL BOOK
AWARD • One of Modern Library's 100 best nonfiction
books of all time • One of Esquire's 50 best biographies
of all time • A towering biography . . . a brilliant
chronicle. • Time This classic biography is the story of
seven men—a naturalist, a writer, a lover, a hunter, a
ranchman, a soldier, and a politician—who merged at age
forty-two to become the youngest President in history.
The Rise of Theodore Roosevelt begins at the apex of
his international prestige. That was on New Year's Day,
1907, when TR, who had just won the Nobel Peace
Prize, threw open the doors of the White House to the
American people and shook 8,150 hands. One visitor
remarked afterward, "You go to the White House, you
shake hands with Roosevelt and hear him talk—and then
you go home to wring the personality out of your
clothes." The rest of this book tells the story of TR's
irresistible rise to power. During the years 1858–1901,
Theodore Roosevelt transformed himself from a frail,
asthmatic boy into a full-blooded man. Fresh out of
Harvard, he simultaneously published a distinguished
work of naval history and became the fist-swinging
leader of a Republican insurgency in the New York State
Assembly. He chased thieves across the Badlands of

North Dakota with a copy of Anna Karenina in one hand and a Winchester rifle in the other. Married to his childhood sweetheart in 1886, he became the country squire of Sagamore Hill on Long Island, a flamboyant civil service reformer in Washington, D.C., and a night-stalking police commissioner in New York City. As assistant secretary of the navy, he almost single-handedly brought about the Spanish-American War. After leading "Roosevelt's Rough Riders" in the famous charge up San Juan Hill, Cuba, he returned home a military hero, and was rewarded with the governorship of New York. In what he called his "spare hours" he fathered six children and wrote fourteen books. By 1901, the man Senator Mark Hanna called "that damned cowboy" was vice president. Seven months later, an assassin's bullet gave TR the national leadership he had always craved. His is a story so prodigal in its variety, so surprising in its turns of fate, that previous biographers have treated it as a series of haphazard episodes. This book, the only full study of TR's pre-presidential years, shows that he was an inevitable chief executive. "It was as if he were subconsciously aware that he was a man of many selves," the author writes, "and set about developing each one in turn, knowing that one day he would be President of all the people."

Ellie's Fate Nov 11 2020 What would you do if Fate gave you a second chance at life? Would you learn from

your past mistakes and take it as a golden opportunity to correct all wrongs? Fate has given Ellie another chance. The question remains... would it be worthwhile? My whole life shifted when Ellie died. Eleanor James. Ellie. My best friend. She was someone I knew better than even myself... or so I thought. Ellie's life was cut short. Ravaged by her addiction to drugs, and perhaps, also by her addiction to fame. Her death felt like a waking nightmare. I wish it was something I could wake up from, but I couldn't escape it. Not even when I tried. Lachesis, one of the three fates, said there was a way to save Ellie. Out of the three conditions she set, I am only one part of that puzzle. For her tragic life to turn around, Ellie would need my support. But she would also need to feel her parent's love, and be reunited with her true love. I don't even know who that person is. Ellie has one last chance at life. How could all of this be done in a single lifetime, when it wasn't possible in a thousand? Will I see her die again? Or will the fates align to give Ellie a future less grim than the ones I witnessed? I don't know all the secrets she kept from me. I won't remember much of our past lives. Can I even save my best friend? Or is it too much to hope?

A History of Modern Indonesia Sep 21 2021 Although Indonesia has the fourth largest population in the world, its history is still relatively unfamiliar and understudied. Guided by the life and writings of the country's most

famous author, Pramoedya Ananta Toer, Adrian Vickers takes the reader on a journey across the social and political landscape of twentieth-century Indonesia in this innovative and timely account. He begins by explaining the country's origins under the Dutch in the early part of that century, the subsequent anti-colonial struggle and revolution which led to independence in 1949. Thereafter the spotlight is on the 1950s, a crucial period in the formation of Indonesia as a new nation, which was followed by the Sukarno years, and the anti-communist massacres of the 1960s when General Suharto took over as president. The concluding chapters chart the fall of Suharto's New Order after thirty two years in power, and the subsequent political and religious turmoil which culminated in the Bali bombings in 2002. Drawing on insights from literature, art and anthropology, Adrian Vickers portrays a complex and resilient people borne out of a troubled past.

The Hour of Fate May 30 2022 A riveting narrative of Wall Street buccaneering, political intrigue, and two of American history's most colossal characters, struggling for mastery in an era of social upheaval and rampant inequality. It seemed like no force in the world could slow J. P. Morgan's drive to power. In the summer of 1901, the financier was assembling his next mega-deal: Northern Securities, an enterprise that would affirm his dominance in America's most important industry-the

railroads. Then, a bullet from an anarchist's gun put an end to the business-friendly presidency of William McKinley. A new chief executive bounded into office: Theodore Roosevelt. He was convinced that as big business got bigger, the government had to check the influence of the wealthiest or the country would inch ever closer to collapse. By March 1902, battle lines were drawn: the government sued Northern Securities for antitrust violations. But as the case ramped up, the coal miners' union went on strike and the anthracite pits that fueled Morgan's trains and heated the homes of Roosevelt's citizens went silent. With millions of dollars on the line, winter bearing down, and revolution in the air, it was a crisis that neither man alone could solve. Richly detailed and propulsively told, *The Hour of Fate* is the gripping story of a banker and a president thrown together in the crucible of national emergency even as they fought in court. The outcome of the strike and the case would change the course of our history. Today, as the country again asks whether saving democracy means taming capital, the lessons of Roosevelt and Morgan's time are more urgent than ever. Destiny of the Republic Jul 20 2021 NATIONAL BESTSELLER □ The extraordinary account of James

Garfield's rise from poverty to the American presidency, and the dramatic history of his assassination and legacy, from the bestselling author of *The River of Doubt*. James Abram Garfield was one of the most extraordinary men ever elected president. Born into abject poverty, he rose to become a wunderkind scholar, a Civil War hero, a renowned congressman, and a reluctant presidential candidate who took on the nation's corrupt political establishment. But four months after Garfield's inauguration in 1881, he was shot in the back by a deranged office-seeker named Charles Guiteau. Garfield survived the attack, but became the object of bitter, behind-the-scenes struggles for power—over his administration, over the nation's future, and, hauntingly, over his medical care. Meticulously researched, epic in scope, and pulsating with an intimate human focus and high-velocity narrative drive, *The Destiny of the Republic* brings alive a forgotten chapter of U.S. history.

The Economics of World War II in Southeast Asia Nov 23 2021 The first comprehensive account of the impact of Japanese occupation on Southeast Asian economies and societies during World War II.

Liem Sioe Liong's Salim Group Oct 23 2021 After Suharto gained power in Indonesia in the mid-1960s, he stayed as the country's president for more than three decades, helped by the powerful military, hefty foreign aid and support from a coterie of cronies. A pivotal business backer for his New Order government was Liem Sioe Liong, a migrant from China, who arrived in Java in 1938. A combination of the Suharto connection, serendipity and personal charm propelled him to become the wealthiest tycoon in Southeast Asia. This is the story of how Liem built the Salim Group, a conglomerate that in its heyday controlled Indonesia's largest non-state bank, the country's dominant cement producer and flour mill, as well as the world's biggest maker of instant noodles. The book features exclusive input from Liem, who died in 2012, and his youngest son, Anthony Salim. It traces the founder's life and the group's symbiosis with Suharto, his generals and family. After the tumultuous 1997-98 Asian financial crisis sparked Suharto's fall and a backlash against the strongman's cronies, Anthony staved off the crushing of the debt-laden group. Told in a journalistic style, the story of the

Salim Group provides insights into Suharto's New Order. For business executives, students and anyone with an interest in Southeast Asia's largest economy, the volume makes a valuable contribution towards understanding the country's modern history.

The New Confessions of an Economic Hit Man Sep 02 2022 Featuring 15 explosive new chapters, this new edition of the New York Times bestseller brings the story of Economic Hit Men up-to-date and, chillingly, home to the U.S. but it also gives us hope and the tools to fight back. The previous edition of this now-classic book revealed the existence and subversive manipulations of "economic hit men. John Perkins wrote that they are highly paid professionals who cheat countries around the globe out of trillions of dollars. Their tools include fraudulent financial reports, rigged elections, payoffs, extortion, sex, and murder. In Perkins's case the tool was debt-convincing strategically important countries to borrow huge amounts of money for enormous, development projects that served the very rich while driving the country deeper into poverty and debt. And once indebted, these countries could be controlled. In this latest edition, Perkins provides revealing new details about how he and others did their work. But more importantly, in an explosive new section he describes how the EHM tools are being used around the world more widely than ever-even in the U. S. itself. The

cancer has metastasized, yet most people still aren't aware of it. Fear and debt drive the EHM system. We are hammered with messages that terrify us into believing that we must pay any price, assume any debt, to stop the enemies who, we are told, lurk at our doorsteps. The EHM system-employing false economics, bribes, surveillance, deception, debt, coups, assassinations, unbridled military power-has become the dominant system of economics, government, and society today. It has created what Perkins calls a Death Economy. But Perkins offers hope: he concludes with dozens of specific, concrete suggestions for actions all of us can take to wrest control of our world away from the economic hit men, and help give birth to a Life Economy.

Endless Holocausts Jan 06 2023 An argument against the myth of "American exceptionalism" Endless Holocausts: Mass Death in the History of the United States Empire helps us to come to terms with what we have long suspected: the rise of the U.S. Empire has relied upon an almost unimaginable loss of life, from its inception during the European colonial period, to the present. And yet, in the face of a series of endless holocausts at home and abroad, the doctrine of American exceptionalism has plagued the globe for over a century. However much the ruling class insists on U.S. superiority, we find ourselves in the midst of a sea change. Perpetual wars, deteriorating economic

conditions, the resurgence of white supremacy, and the rise of the Far Right have led millions of people to abandon their illusions about this country. Never before have so many people rejected or questioned traditional platitudes about the United States. In *Endless Holocausts* author David Michael Smith demolishes the myth of exceptionalism by demonstrating that manifold forms of mass death, far from being unfortunate exceptions to an otherwise benign historical record, have been indispensable in the rise of the wealthiest and most powerful imperium in the history of the world. At the same time, Smith points to an extraordinary history of resistance by Indigenous peoples, people of African descent, people in other nations brutalized by U.S. imperialism, workers, and democratic-minded people around the world determined to fight for common dignity and the sake of the greater good.

Theodore Rex Jun 06 2020 NEW YORK TIMES BESTSELLER — —A shining portrait of a presciently modern political genius maneuvering in a gilded age of

wealth, optimism, excess and American global ascension. San Francisco Chronicle WINNER OF THE LOS ANGELES TIMES BOOK PRIZE FOR BIOGRAPHY [Theodore Rex] is one of the great histories of the American presidency, worthy of being on a shelf alongside Henry Adams's volumes on Jefferson and Madison. Times Literary Supplement Theodore Rex is the story never fully told before of Theodore Roosevelt's two world-changing terms as President of the United States. A hundred years before the catastrophe of September 11, 2001, TR succeeded to power in the aftermath of an act of terrorism. Youngest of all our chief executives, he rallied a stricken nation with his superhuman energy, charm, and political skills. He proceeded to combat the problems of race and labor relations and trust control while making the Panama Canal possible and winning the Nobel Peace Prize. But his most historic achievement remains his creation of a national conservation policy, and his monument millions of acres of protected parks and forest. Theodore Rex ends with TR leaving office, still only fifty years old, his future reputation secure as one of our greatest presidents.

Ike Would Be Proud Mar 08 2023 Dick Peterson has written this book about the Eisenhower Fellows, and for the Fellows. He has chosen to focus on two very visible examples of the Fellows leadership and networking the

Irish Peace Process and ProyectoCities. As an active EF Trustee since 1994, Dick has become convinced that these models can be adapted and applied by Fellows around the world in ways that will make a real difference in their communities and regions. He is absolutely right. I am confident that his two case studies will serve as inspiration to many other groups of Eisenhower Fellows who are already working together to make a difference.

Adrian A. Basora Adrian Basora is President of the Eisenhower Fellowships. He is a former U.S. Ambassador to the Czech Republic. Adrian was Ambassador to Czeckslovakia at the time of the Velvet Revolution which created a separate Slovakia from the Czech Republic. Dick Peterson has splendidly combined his experience as a CEO, his command of organizational development, and affection for Eisenhower Fellowships. The result is a fertile study of two of the most important team projects among Fellows, of which many more are latent around the world.

Theodore Friend Theodore Friend, former President of Swarthmore College, and President Emeritus of Eisenhower Fellowships, was awarded the Bancroft Prize for his book on Philippine-American history, *Between Two Empires*. His other books include *The Blue-Eyed Enemy* and *Family Laundry*, a novel. Dr. Friend is presently a Senior Fellow at the Foreign Policy Research Institute in Philadelphia. His latest book, *Indonesian Destinies* (Harvard University

Press, 2003) penetrates events that gave birth to the world's fourth largest nation and assesses the continuing dangers that threaten its security.

Sweetness and Blood Mar 16 2021 How did an obscure tribal sport from precolonial Hawaii—one that was nearly eliminated by Christian missionaries—jump oceans to California and Australia? And how did it become such a worldwide passion, even in places where the surf may be excellent but the society is highly conservative or superstitious about the sea? In *Sweetness and Blood*—a brilliantly written travel adventure—journalist (and surfer) Michael Scott Moore visits unlikely surfing destinations—Israel and the Gaza Strip, West Africa, Great Britain, Germany, Indonesia, Japan, Cuba, and Morocco—to find out. Whether he is connecting eccentric surf legend Doc Paskowitz to the Arab-Israeli conflict, trying to deconstruct the terrorist bombing in a nightclub in Bali, or being chased by the German police while surfing a river break in Berlin, Moore masterfully weaves together politics, culture, history, and surfing to create a book like no other.

A Muslim Archipelago Dec 05 2022 Southeast Asia continues to beckon policymakers and scholars alike to revisit its history in spite of the tomes of appraisals already written, deconstructive or otherwise. Because of a significant presence of Muslims in the region, and particularly in the wake of 9/11, it invariably attracts the

attention of foreign powers drawn by the specter of terrorism and focused on rooting out radical Islamist groups said to be working with al-Qaeda. Dr. Max Gross has written an impressive account of the role of Islam in the politics of Southeast Asia, anchored by a strong historical perspective and a comprehensive treatment of current affairs. The result is very much a post-9/11 book. The origins of Jemaah Islamiyah and its connections with al-Qaeda are carefully detailed. Yet, unlike much of the post-9/11 analysis of the Muslim world, Dr. Gross's research has been successful in placing the phenomenon of terrorism within a larger perspective. While recognizing that al-Qaeda's influence on regional terror networks remains unclear, it behooves us to be reminded that, regardless of the nature and extent of the linkages, to dismiss terrorism as a serious threat to security would be naive to the point of recklessness. The Muslim Archipelago is a profoundly Islamic region, and Jemaah Islamiyah is only a small portion of this reality. The attention Dr. Gross pays to ABIM in Malaysia, of which I was a part, and the civil Islam movement in Indonesia, of which the late Nurcholish Madjid was a principal spokesman, is greatly appreciated. Those unfamiliar with the background and role of the traditional Islamic PAS party in Malaysia, as well as the Darul Islam movement in Indonesia, will find the author's account highly beneficial. The MNLF, the MILF, and Abu Sayyaf

in the Philippines, as well as the various Islamic movements in southern Thailand, are also carefully explained.

The Killing Season Jan 02 2020 The definitive account of one of the twentieth century's most brutal, yet least examined, episodes of genocide and detention The Killing Season explores one of the largest and swiftest, yet least examined, instances of mass killing and incarceration in the twentieth century—the shocking antileftist purge that gripped Indonesia in 1965–66, leaving some five hundred thousand people dead and more than a million others in detention. An expert in modern Indonesian history, genocide, and human rights, Geoffrey Robinson sets out to account for this violence and to end the troubling silence surrounding it. In doing so, he sheds new light on broad, enduring historical questions. How do we account for instances of systematic mass killing and detention? Why are some of these crimes remembered and punished, while others are forgotten? Based on a rich body of primary and secondary sources, The Killing Season is the definitive account of a pivotal period in Indonesian history.

Indonesian Destinies May 10 2023 How can such a gentle people as we are be so murderous? a prominent Indonesian asks. That question--and the mysteries of the archipelago's vast contradictions--haunt Theodore Friend's remarkable work, a narrative of Indonesia

during the last half century, from the postwar revolution against Dutch imperialism to the unrest of today. Part history, part meditation on a place and a past observed firsthand, Indonesian Destinies penetrates events that gave birth to the world's fourth largest nation and assesses the continuing dangers that threaten to tear it apart. Friend reveals Sukarno's character through wartime collaboration with Japan, and Suharto's through the mass murder of communists that brought him to power for thirty-two years. He guides our understanding of the tolerant forms of Islam prevailing among the largest Muslim population in the world, and shows growing tensions generated by international terrorism. Drawing on a deep knowledge of the country's cultures, its leaders, and its ordinary people, Friend gives a human face and a sense of immediacy to the self-inflicted failures and immeasurable tragedies that cast a shadow over Indonesia's past and future. A clear and compelling passion shines through this richly illustrated work. Rarely have narrative history and personal historical witness been so seamlessly joined.

Finance & Development, June 2004 Apr 16 2021 This paper highlights that 10 new members joined the European Union on May 1, 2004, in the biggest enlargement of the community since its inception. However, the core economic concern is the weak growth performance of Europe—and particularly of the 12 countries at the epicenter of European integration that use the euro as their common currency—relative to the rest of the world and especially the United States. The paper highlights that underlying this concern are the problems of sagging long-term trends in the growth of productivity, and the use of labor resources.

In Asian Waters Mar 04 2020 A sweeping account of how the sea routes of Asia have transformed a vast expanse of the globe over the past five hundred years, powerfully shaping the modern world In the centuries leading up to our own, the volume of traffic across Asian sea routes—an area stretching from East Africa and the Middle East to Japan—grew dramatically, eventually making them the busiest in the world. The result was a massive circulation of people, commodities, religion, culture, technology, and ideas. In this book, Eric Tagliacozzo chronicles how the seas and oceans of Asia have shaped the history of the largest continent for the

past half millennium, leaving an indelible mark on the modern world in the process. Paying special attention to migration, trade, the environment, and cities, *In Asian Waters* examines the long history of contact between China and East Africa, the spread of Hinduism and Buddhism across the Bay of Bengal, and the intertwined histories of Islam and Christianity in the Philippines. The book illustrates how India became central to the spice trade, how the Indian Ocean became a "British lake" between the seventeenth and nineteenth centuries, and how lighthouses and sea mapping played important roles in imperialism. The volume ends by asking what may happen if China comes to rule the waves of Asia, as Britain once did. A novel account showing how Asian history can be seen as a whole when seen from the water, *In Asian Waters* presents a voyage into a past that is still alive in the present.

Asia and the Historical Imagination Dec 25 2021 This collection explores the interpretation of historical fiction through fictional representations of the past in an Asian context. Emphasising the significance of region and locality, it explores local networks of political and cultural exchanges at the heart of an Asian polity. The book considers how imagined pasts converge and diverge in developed and developing nations, and examines the limitations of representation at a time when theories of world literature are shaping the way we interpret global

histories and cultures. The collection calls attention to the importance of acknowledging local tensions—both within the historical and cultural make-up of a country, and within the Asian continent—in the interpretation of historical fiction. It emphasizes a broad-spectrum view that privileges the shared historical experiences of a group of countries in close proximity, and it also responds to the paradigm shift in Asian Studies. Discussing how local conditions shape and create expectations of how we read historical fiction and working with the theme of fictionality and locality, the volume provides an alternative framework for the study of world literature.

Confessions of an Economic Hit Man Jun 30 2022
"Economic hit men," John Perkins writes, "are highly paid professionals who cheat countries around the globe out of trillions of dollars. Their tools include fraudulent financial reports, rigged elections, payoffs, extortion, sex, and murder." John Perkins should know—he was an economic hit man. His job was to convince countries that are strategically important to the U.S.—from Indonesia to Panama—to accept enormous loans for infrastructure development, and to make sure that the lucrative projects were contracted to U. S. corporations. Saddled with huge debts, these countries came under the control of the United States government, World Bank and other U.S.-dominated aid agencies that acted like loan

sharks dictating repayment terms and bullying foreign governments into submission. This New York Times bestseller exposes international intrigue, corruption, and little-known government and corporate activities that have dire consequences for American democracy and the world. It is a compelling story that also offers hope and a vision for realizing the American dream of a just and compassionate world that will bring us greater security.

'Constructive Bloodbath' in Indonesia Feb 01 2020

Religion and Religiosity in the Philippines and Indonesia Dec 13 2020 This comparative exploration looks at religion and politics in the social dynamics of Southeast Asia's two most populous nations. The Philippines and Indonesia are treated as one vast "Phil-Indo" archipelago. Eight leading scholars contribute interwoven and contending essays. The authors find that while neither country promotes a state religion, both lack partitions between church and state. Social dynamics of faith in each elude constitutional restrictions. In the Philippines, a Spanish tradition of an ecclesiastical state exists in tension with a Jeffersonian notion of separation of realms. In Indonesia, pre-Islamic concepts of a god-king fuse state and society, as modern initiatives surge from the premise of a prevailing Islamic community. Official religiosity pervades Indonesian national life, while Filipinos act out their private religiosity en masse,

trying to overcome deficiencies in state and church. The book includes 38 photographs, in color and black and white, with commentaries that further illustrate the themes of each chapter. Contributors include Azyumardi Azra (University Islam Negeri, Indonesia), Jose M. Cruz (Ateneo de Manila University, The Philippines), Donald K. Emmerson (Institute for International Studies, Stanford University) Theodore Friend (Foreign Policy Research Institute), Robert W. Hefner (Institute for the Study of Economic Culture, Boston University), Vicente Leuterio Rafael (University of Washington), Jose Eliseo Rocamora (Institute for Popular Democracy, The Philippines) and David Joel Steinberg (Long Island University).
