*Bibliografía cronológica de la lingüística, la gramática y la lexicografía del español (BICRES V)* Oct 03 2022 Since the publication of the still very valuable Biblioteca histórica de la filología by Cipriano Muñoz y Manzano, conde de la Viñaza (Madrid, 1893), our knowledge of the history of the study of the Spanish language has grown considerably, and most manuscript and secondary sources had never been tapped before Hans-Josef Niederehe of the University of Trier courageously undertook the task to bring together any available bibliographical information together with much more recent research findings, scattered in libraries, journals and other places. The resulting Bibliografía cronológica de la lingüística, la gramática y la lexicografía del español: Desde los principios hasta el año 1600 (BICRES) began appearing in 1994. BICRES I covered the period from the early beginnings to 1600), followed by BICRES II (1601–1700), BICRES III (1701–1800), and together with Miguel Ángel Esparza Torres of Madrid there followed BICRES IV (1801 to 1860). Now, the fifth volume, has become available, covering the years from 1861 to 1899. Access to the bibliographical information of altogether 5,272 titles is facilitated by several detailed indexes, such as a short title index, a listing of printers, publishers and places of production, and an author index. More than twenty years of research in the major libraries of Spain and other European countries have gone into this unique work — relative sources of the Americas have also been covered — making it exhaustive source for any serious scholar of any possible aspect of the Spanish language.

**Manual de Derecho Constitucional español con perspectiva de género** Dec 25 2021 Este volumen — que el lector y lectora tiene entre sus manos o visualiza a través de una pantalla— es resultado de un intenso debate y reflexión sobre el Derecho Constitucional español bajo dos principios vertebradores. El primero de ellos, fundamentar una obra canónica

que permita al lector y lectora adentrarse no solo en la teoría, sino en la práctica del Derecho constitucional español con todo el rigor académico. El segundo principio vertebrador hace de este Manual una obra absolutamente novedosa: incluye e integra la perspectiva de género, lo que comporta la inclusión de las mujeres como sujetos constitucionales y como principio en la construcción de un nuevo Derecho Constitucional. No existe en España un manual que disponga de esta doble función. Su novedad, radical, se viene gestando a lo largo de varios seminarios y encuentros de la red de estudio, Red Feminista de Derecho Constitucional. Y la publicación por parte de una editorial académica, Ediciones Universidad de Salamanca, supone un nuevo hito en el diálogo fecundo y constante entre sociedad y universidad, a la que nos debemos. La obra se conforma en dos volúmenes. Este primer volumen analiza a lo largo de cinco bloques la Constitución y el constitucionalismo español, las fuentes del Derecho, los órganos y poderes del Estado y, finalmente, la organización territorial del Estado desde la perspectiva de género. En sus aspectos metodológicos, cada uno de los capítulos que componen el manual dispone de un riguroso marco teórico donde se exponen las cuestiones generales propias de este tipo de obras, esbozadas y enriquecidas con la perspectiva de género, orientado siempre a cumplir las funciones tanto de manual al uso como de manual con perspectiva de género. A continuación se incluye una práctica, que servirá al lector y lectora para aplicar sus conocimientos teóricos a un caso concreto. El capítulo finaliza con una relación bibliográfica, la legislación nacional e internacional y la jurisprudencia nacional e internacional que permitirán profundizar y ampliar conocimientos. Cada capítulo se ha construido con el espíritu crítico y propositivo que inspira a la Red, por lo que, además de una exposición de las cuestiones a tratar, se incluyen unas propuestas de reforma constitucional con perspectiva de género, en las que la Red lleva trabajando varios años y cuyos estudios y propuestas en este ámbito son pioneros. El segundo volumen, Derechos fundamentales y garantías constitucionales, se encuentra en preparación.
