In view of the fact that Assam had its own laws and codes different from those of other provinces of British India, this work is unique and pioneering in its reach. Assam was administered under non-regulation system which had its origin in the neighbouring province of Bengal and was governed by a mixed system of local and regulation laws. In the administration of civil justice, the Bengal regulations were entirely dispensed with, while in criminal administration the regulations were followed more or less. Since the occupation of the province by the Company's government till 1837 the fundamental drawback of the entire judicial administration was the want of a definite code of law, the absence of which confused the administrators in delivering justice. It was only in 1837 that

rules for the civil and criminal administration, popularly known as the Assam Code, were drafted and judicial administration in the province found a sound footing. The presentation and analysis of the laws and codes prepared by the Government of Bengal in its executive capacity in consultation with the local authorities in Assam is the most distinctive feature of this comprehensive work. Please note: Taylor & Francis does not sell or distribute the Hardback in India, Pakistan, Nepal, Bhutan, Bangladesh and Sri Lanka
