Students in America will spend over 14,000 seat hours in a classroom before they graduate from high school. On the other hand, most Christian children spend less than an hour a day in meaningful interaction with their parents, and only a few hours a week (at most) in church. Is it reasonable for us to assume that the Christian instruction they receive during off-hours will outweigh the thousands of hours of anti-Christian perspectives they are bombarded with by the media and the public school system? What does God say about how He expects Christians to educate their children? This book will radically challenge your paradigms and biases, but will consistently point you to the Word of God as the final answer for all of life, including education. Great resource for pastors, parents, and grandparents to understand the role of education in a Christian family. Aligns with the core philosophy of Master Books Curriculum and can be used as an apologetic for Christian education. "Introduces fiction story writing to children using photographs as idea prompts"-- Local newspapers can hold back the rising tide of political division in America by turning away from the partisan battles in Washington and focusing their opinion page on local issues. When a local newspaper in California dropped national politics from its opinion page, the resulting space filled with local writers and issues. We use a pre-registered analysis plan to show that after this quasi-experiment, politically engaged people did not feel as far apart from members of the opposing party, compared to those in a similar community whose newspaper did not change. While it may not cure all of the imbalances and inequities in opinion journalism, an opinion page that ignores national politics could help local newspapers push back against political polarization. Mr. Darcy speaks from his heart: Pride and Prejudice from Darcy's point of view Though tired of Society's manipulations, Darcy never thought to be enchanted by a country maiden. However, on a visit to rural Hertfordshire, Elizabeth Bennet captivates him. Lovely and vivacious, she is everything he is not, and everything he longs to have. Unfortunately, her connections put her decidedly beneath him, and the improprieties he observes in her family do not win his favor. Putting her firmly out of his mind, Darcy returns to London, but Elizabeth is not so easily forgotten. When chance throws them together, Darcy can no longer deny his love, but Elizabeth, put off by his manners, refuses him. To change her mind, he must set aside his proud ways and learn how to please a woman worthy of being pleased. It takes a serious incident for his true character to shine, and for Elizabeth to learn just how valuable is... His Good**

Understanding Public Opinion, edited by Barbara Norrander and Clyde Wilcox, is a collection of original essays that explores the sources, content, and effects of American public opinion at the close of the twentieth century. The book examines the diversity in contemporary public opinion research by focusing on questions such as where attitudes and opinions come from, how they are organized, how they affect an individual's political participation and vote choice, what forms the content of public opinion, and what impact public opinion has on the president, Congress, and the Supreme Court. The chapters, written by leading scholars, present research that exposes readers to both the substance of American public opinion and the process of that research. They reveal how social scientists approach a question, what the research looks like, and how conclusions are derived. ## **PRAISE FROM CAT EXPERTS**

*This is an absolutely delightful book intended for children, but actually one that is informative for adults as well, it reinforces the importance of considering various factors when selecting a cat as a pet. The two cousins are exchanging thoughts about their lifestyles and priorities. They each have a vision of their ideal cat. Though every cat is an individual, the book expresses the value of predictable personality traits and other characteristics of various pedigreed cat breeds. It is a charming story of the two children each going through the process of finding a cat who best fits their own preferences. The playful illustrations compliment the humorous and educational quality of the book.*

*--Joan Miller, Cahir, CFA Outreach and Education, Cat Fancier's Association*

*This is quite simply as informative a cat book as any text out there. Each selected breed pinpoints the single most important trait to know about it before choosing a cat, purrfect for you. Although written from a child's perspective, it makes clear sense to readers of all ages. As a cat lover and Maine Coon Cat breeder and enthusiast, I was thrilled with the spot on description and story of this beloved breed.*

She introduces the value of the written text at an early age to children. This cannot be emphasized enough in our early classrooms. With this comes an important lesson regarding the responsibility of owning and caring for a dog. As President of the Labrador Retriever Club representing the breed with the largest number of dogs I know how imperative responsible dog ownership is and Darcy does a wonderful job instilling this at an early age. This is a remarkable children's book that has a lesson." -Fred Kampo, President of the Labrador Retriever Club This story hits many notes: A family story about cousins, Dennis and Mellie Information on dog breeds Responsible dog ownership Mentor-

"This book traces the emergence of the ideas and institutions that evolved to give people mastery over their own destiny through the force of public opinion. The Greek belief in citizen participation is shown as the ground upon which the idea of public opinion began and grew. For Wilson, public opinion is an "orderly force," contributing to social and political life. Wilson appraises the influence of modern psychology and the slow appearance of methodologies that would enable people not only to measure the opinions of others, but to mold them as well. He examines the relation of the theory of public opinion to the intellectuals, the middle class, and the various revolutionary and proletarian movements of the modern era. The circumstances in which the individual may refuse to follow the opinions of the experts are succinctly and movingly analyzed. This book is a historical and philosophical evaluation of a concept that has played a decisive part in history, and whose overwhelming force is underestimated. The author's insight brings an understanding that is invaluable at a time when public opinion, the force developed to enable the ruled to restrain their rulers, has become controllable. Attempts to manipulate it are made by those who would impose their will upon their fellow men."--Provided by publisher. TO THE READER Dear reader: From my readings and personal experience, I have my own views as every Sudanese citizen may have about the future of his home country; and I have my own opinion concerning the sociopolitical situation in my beloved country, Sudan . I wrote some articles about the recurring problems in my country. However, those articles were not publishable by the media in Sudan as it would create a governmental upset against the media and against those who dare to promote free writing; because free writing may open the door for people who have opposing views with the ruling despotic regime to reveal their disagreement. I started thinking of Sudanese complicated political problems a long time ago, but seriously in 1999. However, I started writing my opinion about these problems in the year 2000, while I was abroad. I posted my first Arabic version at my website in 2001. There was a tremendous request to the website and thousands of visitors hits were logged by the website in the first month; and showed navigation through all the web pages. Most of the visitors were Sudanese who are living abroad, as the website statistics reflected. They were either immigrants or refugees at different countries around the world, as some of them have indicated in their electronic mail messages. Till this time, I didn t get clear reaction (positive or negative) about the opinion. I think they respected the effort put in developing such an opinion concerning the sociopolitical situation in Sudan. I thought many times about publishing this opinion in a book to be distributed inside my home country, Sudan. However, relatives and friends were absolutely against the idea. Most of them thought that: since the government is basically against any opinion that comes opposing to their propagandas in ruling the country, I would myself fail this trial of publishing the book. Some of them thought that time has not ripened yet; and since the idea of the book is very controversial, they suggested that

I should wait for the right opportunity. My country is going through difficult times and is becoming like a kid country that needs parents to guide him and put him in the right track! The main point of my opinion is about the identity of my country. Since the independence, the country's identity is not well-defined: sometimes it is Afro-Arab, at other times it is Arab-African; sometimes it is African, and at other times it is an Arab! Some of us want the country to be a new Sudan; others want it to be just Sudan. In this opinion, I tried, hopefully, to outline a suitable definition of an identity of this Country, which has been split (on 09/07/2011) in two countries: Republic of Sudan (in the north and which is supposed to be my home country), and Southern Republic of Sudan. Why it is split into two countries? This question should be answered by the ruling totalitarian despotic régime. In the second chapter, the reader will find out justifiable evidences (I think) concerning the identity that, I assume, is the most suitable for my people in Sudan. Why should I plan a new system for governing such a continental country? Is it because I am planning to become its president? Of course No, I am not. I am suggesting such a political frame for governing my country hoping to attract my people to think deeply and genuinely about decisive solutions to their accumulated problems. Readers, then, have the choice to take it or leave it. I hope it should be understood that the opinion is a mere attempt for solving our educational, health, social, political, economical and ethnic problems by throwing some lights on them. When this book is published, the situation in my country might have been apparently changed but not drastically, and the problem of identity remains unsolved. As a result, we will remain orbiting our old vicious circle. Our country will not gain stability if we could not solve the problem of its identity. If we solve this problem, we will bring in u Guide students through writing about their opinion using Stella's experiences as she chooses a topic, states her opinion, and lists supporting reasons. The ability to express one's opinion clearly and convincingly is an invaluable skill. Readers will learn to distinguish opinions from facts. This book emphasizes the importance of strong introductions and conclusions and of using facts to support one's opinions. Writing samples offer concrete examples, while sidebars supply useful writing tips. A great guide to an important topic! provides a fundamental treatise on the nature of human information and communication. The work is divided into eight parts, covering such varied issues as stereotypes, image making, and organized intelligence. The study begins with an analysis of "the world outside and the pictures in our heads", a leitmotif that starts with issues of censorship and privacy, speed, words, and clarity, and ends with a careful survey of the modern newspaper. Lippmann's conclusions are as meaningful in a world of television and computers as in the earlier period when newspapers were dominant. Public Opinion is of enduring significance for communications scholars, historians, sociologists, and political scientists. Copyright © Libri GmbH. All rights reserved. This 1992 book explains how people acquire political information from elites and the mass media and convert it into political preferences. A NEW YORK TIMES BESTSELLER! Jacqueline Woodson's first middle-grade novel since National Book Award winner *Brown Girl Dreaming* celebrates the healing that can occur when a group of students share their stories. It all starts when six kids have to meet for a weekly chat--by themselves, with no adults to listen in. There, in the room they soon dub the ARTT Room (short for "A Room to Talk"), they discover it's safe to talk about what's bothering them--everything from Esteban's father's deportation and Haley's father's incarceration to Amari's fears of racial profiling and Ashton's adjustment to his changing family fortunes. When the six are together, they can express the feelings and fears they have to

hide from the rest of the world. And together, they can grow braver and more ready for the rest of their lives. A “deeply researched and uncommonly engrossing” book profiling ten trailblazing literary women, including Dorothy Parker and Joan Didion (Paris Review). In *Sharp*, Michelle Dean explores the lives of ten women of vastly different backgrounds and points of view who all made a significant contribution to the cultural and intellectual history of America. These women—Dorothy Parker, Rebecca West, Hannah Arendt, Mary McCarthy, Susan Sontag, Pauline Kael, Joan Didion, Nora Ephron, Renata Adler, and Janet Malcolm—are united by what Dean calls “sharpness,” the ability to cut to the quick with precision of thought and wit. *Sharp* is a vibrant depiction of the intellectual beau monde of twentieth-century New York, where gossip-filled parties gave out to literary slugging-matches in the pages of the *Partisan Review* or the *New York Review of Books*. It is also a passionate portrayal of how these women asserted themselves through their writing despite the extreme condescension of the male-dominated cultural establishment. Mixing biography, literary criticism, and cultural history, *Sharp* is a celebration of this group of extraordinary women, an engaging introduction to their works, and a testament to how anyone who feels powerless can claim the mantle of writer, and, perhaps, change the world.

"Introduces opinion writing to children using photographs as idea prompts"-- How many ridiculous things have you heard in your life in the name of an opinion? Random people walking up to you to give unsolicited advice. You get opinions from strangers and people who don't really know you. Many a time, it's a comment made in the passing. How many times has it pained you when a relative, friend or acquaintance judged you? How many times have you fumbled with words, trying to explain yourself when you needed a shoulder to lean on? How do these ridiculous things that people say influence your mind and thought process? It sits somewhere in your subconscious mind, causing micro-level damage to your self-worth and belief. It is we who let these oppressive remarks suppress us. This book is about starting a revolution within ourselves. Enough of shackling our self-worth according to fancy norms of the society. It's a dictatorship that we need to bring down. This revolution first starts from within. We are going to fight our own selves. We can't control running mouths, meaningless opinions or sarcastic remarks of people. What is in our hands is to undo the damage of such judgements and never let it get to us. Say "No" to the naysayers. Don't let them get to you. Roy Eaton exhorts his readers to help restore civility in public life and help America once again become "a beacon to the world." Read his words and form your own opinions. --Jane A. Marlowe, Coastal Breeze News, Retired Copy Editor

Mr. Eaton continues to impress with his writing; and his unique style and personality always seem to shine through from one book to the next, regardless of whether he is writing a novel, memoir, or short essays--as he has now done with *Of Course I Have An Opinion*. --Mark Mingle, Marketing and Sales Professional

Eaton hits the nail on the head once more with his compilation of published essays, editorials, and short stories. It is, at times, sad that his brilliant insight proves correct. Any citizen interested in the current state of the union in which we live and it's dubious future should read Eaton's latest work, *Of Course I Have An Opinion*. It is bound to please. --Joe DiLalla, Author of *Bloodlines*

*Public Opinion* is a comprehensive and multidisciplinary examination of public opinion in the United States. Drawing on scholarship in political science, psychology, sociology, and communications, the authors explore the nature of political and social attitudes in the United States and how these attitudes are shaped by various institutions, with an emphasis on mass media. The book also serves as a provocative starting point for the discussion of citizen moods, political participation, and voting behavior. Feature boxes and illustrations throughout help students understand all aspects of the elusive phenomenon we call public opinion. The third edition has been thoroughly revised and updated to reflect how public opinion is studied today, and to

incorporate current data and debates. The book now contains two revised and reframed theory chapters 'Group Membership and Public Opinion' and 'Public Opinion and Social Process', as well as new coverage of the influence of online and social media on public opinion, especially in issue opinions and campaigns. This book emphasizes the importance of strong introductions and conclusions and of using facts to support one's opinions. Writing samples offer concrete examples, while sidebars supply useful writing tips. A great guide to an important topic! A hilarious, timely conversation about the differences between facts and opinions, by the creator of the #1 New York Times bestseller Goodnight Goon Do you know the difference between a fact and an opinion? It can be a hard thing to understand. Some things are facts--like the number of robots in this book. Other things are opinions--like which robot would make the best friend, or which robot dances best. And sometimes to tell the difference between a fact and an opinion, you need to wait to get more information--that's because facts can be proven true or false, and opinions are things you feel and believe--but that you can't prove. Mike Rex introduces young readers to the very important distinction between facts and opinions, and he reminds us that it is nice to listen to one another's opinions, and to stand up for the facts! We develop a simple statistical method to find affinity relations in a large opinion network which is represented by a very sparse matrix. These relations allow us to predict missing matrix elements. We test our method on the Eachmovie data of thousands of movies and viewers. We found that significant prediction precision can be achieved and it is rather stable. There is an intrinsic limit to further improve the prediction precision by collecting more data, implying perfect prediction can never obtain via statistical means.
