Gang Wars of London charts the development of organised crime in the capital since 1945, from the post-war street gangs to the drug barons, cyber criminals and terrorists that threaten our safety today. The underworld has thrived for more than half a century but it appears the capital has now entered its most deadly phase, as vicious gangs from all over the globe are making this city their home. They will do anything to get what they want and challenge anyone who gets in their way: police, civilians or each other. Here, for the first time, is an up-to-date and in-depth account of London's current crime epidemic that threatens to destroy the very fabric of our capital city. Hotel London: How Victorian Commercial Hospitality Shaped a Nation and Its Stories examines Victorian London's grand hotels as both an institution and a culture intimately connected to the urban landscape. In her new study, Barbara Black argues that London's grand hotels provided an essential space for socializing, fashioned by concerns relating to class, gender, and nationality. Rooted in Walter Benjamin's "new velocities" of the nineteenth century and Wayne Koestenbaum's hotel theory, Hotel London explores how the emergence of the grand hotel as a physical and metaphorical space helped to construct a consumer economy that underscored London's internationalism and, by extension, England's global status. Incorporating the works of Oscar Wilde, Henry James, Wilkie Collins, Arnold Bennett, Florence Marryat, and Marie Belloc Lowndes, as well as contemporary depictions of the hotels in Mad Men, American Horror Story, and The Grand Budapest Hotel, Black examines how the hotel supported a corporate identity that would ultimately

assist in the rise of modern capitalist structures and the middle class. In this way, Hotel London exposes the aggravations of class stratifications through the operations of status inside hotel life, giving a unique perspective on Victorian London that could only come from the stories of a hotel.
